March 23, 2021

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Deer Park, Texas:

Texas law and the City charter require that the City of Deer Park (the “City”) publish a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, I am pleased to submit the Comprehensive Annual Financial Report of the City for the fiscal year ended September 30, 2020. This report is published to provide the citizens, City Council, City management and staff, bondholders and other interested parties detailed information concerning the financial condition of the City. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To provide a reasonable basis for making these representations, the City has established a comprehensive internal control framework designed to protect the City’s assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City’s financial statements. I believe the data, as presented, is accurate in all material respects and that it is reported in a manner that fairly presents the financial position and results of operations of the City as measured by the financial activity of the various funds and account groups. All disclosures necessary to enable the reader to gain the maximum understanding of the City’s financial activities have been included.

## **The Report**

In compliance with the Governmental Accounting Standards Board (GASB) Statement No. 34 *Basic Financial Statements – And Management’s Discussion and Analysis – For State and Local Governments*, this report includes a Management’s Discussion and Analysis (MD&A) which provides a narrative introduction, overview, and analysis to accompany the basic financial statements. The MD&A is located immediately following the Independent Auditors’ Report. This letter of transmittal is designed to complement MD&A and should be read in conjunction with it.

## **City Profile**

The City of Deer Park, incorporated in 1948, is located in the center of the highly industrialized ship channel area just east of Houston. The City currently occupies a land area of 15 square miles and serves a population of approximately 35,297. The City is empowered to levy an ad valorem tax on both real and personal property located within its boundaries. Further, the City is empowered to extend its corporate limits by annexation. The City receives annual “in-lieu-of-tax” payments from industries located within its extraterritorial jurisdiction. This “industrial district” includes the operations of 24 companies that contract with the City. The current contract, which was modified and renewed effective January 1, 2015, has a 12-year term and will expire on December 31, 2026.

The City operates under a home rule, council-manager form of government. Policy-making and legislative authority are vested in a City Council consisting of the mayor and six other members. The City Council is responsible for passing ordinances, adopting the budget, appointing committees, and hiring the City Manager and City Attorney. Council members are elected on a non-partisan basis and serve two-year staggered terms. The Mayor and three Council members are elected in odd numbered years and the three remaining Council members are elected in even numbered years. The City Manager is responsible for the execution of City policies and ordinances, oversight of the daily operations of the City, and appointment of department heads.

The City provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; sanitation, water, and sewer services; library services; recreational and cultural opportunities; and general administrative services. In fiscal year 2012, following a special election for each, the City added two component units to be funded by sales and use taxes: the Crime Control and Prevention District and the Fire Control, Prevention, and Emergency Medical Services District. Each district was approved for a period of five years. In May 2016, voters authorized continuation of both the Crime Control and Prevention and District and the Fire Control, Prevention, and Emergency Medical Services District for a period of 10 years, including the continuation of the dedicated sales and use tax for each.

## **Annual Budget**

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City are required to submit requests for appropriation to the City Manager by May of each year. The City Manager uses these requests as the starting point for developing a proposed budget, which is presented to the City Council for review at least 45 days prior to the last regular meeting in September. The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g., police), and appropriations are approved at the departmental level. Department heads may make appropriation transfers within a department with approval of the City Manager. Appropriation transfers outside of the department require approval of the City Council. The budget report includes a comparison of the actual results to the budget for each individual governmental fund for which an appropriated annual budget has been adopted.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the City operates.

**Local economy.** Deer Park lies directly adjacent to Port Houston, which is a 25-mile-long complex of diversified public and private facilities located just a few hours by ship from the Gulf of Mexico. The Port is consistently ranked 1st in the United States in foreign waterborne tonnage; 1st in U.S. imports; 1st in U.S. export tonnage; and 2nd in the U.S. in total tonnage. Additionally, Port Houston is the nation's leading breakbulk post, handling 65 percent of all major U.S. project cargo. The Port's container ship traffic is expected to grow significantly over the next 10 years because of the Panama Canal widening project and the deepening of Houston's ship channel. In anticipation of this growth, large office/warehouse projects are now being constructed or have recently been completed within the Deer Park city limits.

Victory Commerce Center, a 350,000 square foot distribution center in Deer Park, was 100 percent leased in 2020 to a large sugar distributor/exporter.

Underwood Port Logistics Center, a 404,000 square foot development, was leased 100 percent in 2020 to a third-party logistics company.

Another large office/warehouse project, Monument Business Park Phase 1, was recently completed. The developer has leased over half of the building to a third-party logistics company. Phase 2 of this project is an adjacent 180,000 square foot warehouse with rail access and is expected to break ground in April 2021.

Deerwood Glen Business Park, owned by Clay Development & Construction, Inc., is Deer Park's 150-acre light industrial business park. Over the past 10 years, Deerwood Glen has seen an exciting influx of build-to-suit tenants and has now reached the ultimate point of final build-out. John Crane Power Transmission was Deerwood Glen's first tenant in 2009, followed by Mustang Engineering, Code Red Safety, Abrasive Products and Equipment, Core Laboratories, the Houston Pilots' Association, Siemens, and many others. The last parcel, a 300,000 square foot distribution warehouse, was leased in 2020 to a third-party logistics company for CAP Barbell.

The City has a Chapter 380 Economic Development Program Agreement with NEC Spencer Highway and East Boulevard Phase 1, LTD, which is a development of a mixed use/retail complex next to the City's HEB grocery store that opened in November 2015. The developer has received a key Letter-of-Intent from two retailers, but the project is currently on hold due to the pandemic. Once completed, this would provide an additional 300,000 square feet of retail space and generate nearly \$40 million in combined property and sales taxes for the City.

Shell Federal Credit Union is the 18th largest credit union in Texas and headquartered in the City of Deer Park. They are currently undergoing construction for a 100,000 square foot expansion project, which also includes a three-story parking garage

**Accounting and budgetary controls.** The City's accounting records for general governmental operations are maintained on a modified accrual basis, with revenues recorded when available and measurable, and expenditures recorded when the liability is incurred. Proprietary operations are maintained on a full accrual basis.

During the course of the fiscal year, each department head monitors expenditure controls with overall review exercised by the Director of Finance and the City Manager. Monthly expenditure reports provide information to department heads for decision making and, if necessary, timely corrective action to ensure the integrity of the adopted budget. Changes to approved expenditures are incorporated into the current year budget throughout the year in the form of budget amendments approved by City Council.

Management of the City is responsible for establishing and maintaining an internal control system designed to ensure that the City's assets are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the valuation of costs and benefits require estimates and judgments by management. Internal controls are subject to periodic evaluation by management and independent auditors. I believe the City's accounting controls provide reasonable assurance that employees in the normal course of business will detect and/or prevent errors or irregularities that could be material to the financial statements.

**Long-term financial planning.** The City continues to evaluate opportunities to improve operational efficiency and generate cost savings. The City maintains a Capital Improvement Plan for drainage projects and infrastructure needs throughout the City.

In order to remain financially strong and provide a framework for prudent financial management, the following financial controls are monitored annually:

- A multi-year financial forecast is updated projecting revenues and expenditures for all operating funds.
- Rates, fees, and charges for services are reviewed and adjusted as necessary to respond to changing financial circumstances.
- Insurance coverage is examined to ensure that policy limits are adequate and in compliance with revenue bond covenants.

- Bonds are issued as part of a planned debt issuance program to finance long-term capital projects.

## **Independent Audit**

The City Charter requires an annual audit of all accounts of the City by an independent certified public accountant. The independent auditors' report prepared by Belt Harris Pechacek, LLLP is presented as the first component of the financial section of this report.

## **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Deer Park for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2019. This was the 33rd consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. I believe the current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and I will be submitting it to the GFOA to determine its eligibility for another certificate.

## **Acknowledgements**

The preparation of this report would not have been possible without the capable and dedicated services of the entire staff of the finance department and the cooperation of all other City departments. I would like to express my appreciation to all members of the finance department and all other City staff who assisted and contributed to the preparation of this report. Credit must also be given to the Mayor, City Council, City Manager, and Assistant City Manager for their continued interest and support in planning and conducting the financial operations of the City in a responsible and professional manner.

Respectfully submitted,

*Donna Todd*

## ***INDEPENDENT AUDITORS' REPORT***

To the Honorable Mayor and  
City Council Members of the  
City of Deer Park, Texas:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Deer Park, Texas (the "City") as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, the schedule of changes in net pension and total other postemployment benefit liability and related ratios, the schedule of the City's proportionate share of the net pension liability, and the schedules of contributions, identified as Required Supplementary Information on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining statements and schedules, and statistical section are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2021 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or

DRAFT

on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

# DRAFT

***MANAGEMENT'S DISCUSSION  
AND ANALYSIS***

# DRAFT

(This page intentionally left blank.)

**DRAFT**  
**CITY OF DEER PARK, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

The Statement of Activities presents information showing how the City's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows – the accrual method rather than modified accrual that is used in the fund level statements.

The Statement of Net Position and the Statement of Activities divide the City's financials into two classes of activities:

1. *Governmental Activities* – Most of the City's basic services are reported here including general government, public safety, public works, parks and recreation, and community development. Interest payments on the City's tax-supported debt are also reported here. Sales tax, property tax, franchise fees, municipal court fines, and permit fees finance most of these activities.
2. *Business-Type Activities* – Services involving a fee for those services are reported here. These services include the City's water and sewer services, as well as storm water utility services.

The government-wide financial statements include not only the City itself (known as the primary government), but also three legally separate discretely presented component units, the Crime Control and Prevention District; the Fire Control, Prevention, and Emergency Medical Services District; and the Deer Park Community Development Corporation, for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found after the MD&A.

## **FUND FINANCIAL STATEMENTS**

Funds may be considered as operating companies of the parent corporation, which is the City. They are usually segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance related legal reporting requirements. The three categories of City funds are governmental, proprietary, and fiduciary.

### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 13 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and the capital improvement fund, which are considered to be major funds for reporting purposes.

**DRAFT**  
**CITY OF DEER PARK, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

The City adopts an annual appropriated budget for its general fund, debt service fund, hotel/motel occupancy tax fund, grants fund, police forfeiture fund, and the municipal court fund. Budgetary comparison schedules have been provided for these funds to demonstrate compliance with these budgets.

**Proprietary Funds**

The City maintains one type of proprietary fund, enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water distribution, wastewater collection/treatment, and storm water utility operations. The proprietary fund financial statements provide separate information for the water and sewer fund and the storm water utility fund. The basic proprietary fund financial statements can be found in the basic financial statements of this report.

**Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reported in the government-wide financial statements because resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City maintains one fiduciary fund, the senior citizens trust fund. The City's fiduciary activities are reported in a separate statement of net position and statement of changes in net position.

**Notes to Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes are the last section of the basic financial statements.

**Other Information**

In addition to basic financial statements, MD&A, and accompanying notes, this report also presents certain Required Supplementary Information (RSI). The RSI includes a budgetary comparison schedule for the general fund, the schedules of changes in net pension and total other postemployment benefit (OPEB) liability and related ratios, the schedule of the City's proportionate share of the net pension liability, and the schedules of contributions. RSI can be found after the notes to the basic financial statements.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of the City's financial position. For the City, assets and deferred outflows of resources exceed liabilities and deferred inflows by \$141,448,170 as of September 30, 2020. This compares with \$132,468,447 from the prior fiscal year. The largest portion of the City's net position, 66.96 percent, reflects its investments in capital assets (e.g., land, buildings, equipment, improvements, construction in progress, and infrastructure), less any outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

**CITY OF DEER PARK, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
For the Year Ended September 30, 2020

**Statement of Net Position**

The following table reflects the condensed Statement of Net Position:

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2020	2019	2020	2019	2020	2019
Current and other assets	\$ 68,302,148	\$ 63,496,345	\$ 25,793,502	\$ 27,565,389	\$ 94,095,650	\$ 91,061,734

Restricted	7,237,870	6,873,691	-	-	7,237,870	6,873,691
Unrestricted	27,521,840	23,616,264	11,962,297	8,276,132	39,484,137	31,892,396
<b>Total Net Position</b>	<b>\$ 112,667,265</b>	<b>\$ 104,593,966</b>	<b>\$ 28,780,905</b>	<b>\$ 27,874,481</b>	<b>\$ 141,448,170</b>	<b>\$ 132,468,447</b>

A portion of the City's net position, \$7,237,870 or 5.13 percent, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net position, \$39,484,137 or 27.91 percent, may be used to meet the City's ongoing obligations to citizens and creditors.

The City's total net position increased by \$8,979,723 during the current fiscal year, an increase of 6.78 percent in comparison to the prior year net position. Compared to the prior year, total assets increased \$10,806,823 largely due to the current year operating surplus, an increase in receivables for the Coronavirus Relief Fund grant, and an increase in capital assets largely attributable to construction projects. Deferred outflows of resources decreased \$5,331,661 while deferred inflows of resources increased \$4,676,122 from the prior year mainly due to the net difference between projected and actual investment earnings on pension plan assets. Long-term liabilities decreased \$7,925,711 compared to the prior year due to current year principal payments and a decrease in the net pension liability. This decrease was partially offset by the issuance of Certificates of Obligation, Series 2019. Other liabilities decreased \$254,972 largely due to less payables related to various construction projects.

**CITY OF DEER PARK, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

Graphic presentations of selected data from the summary tables follow to assist in the analysis of the City's activities.

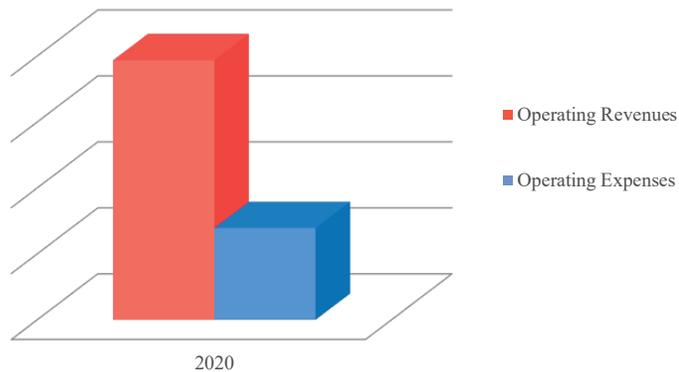

**Governmental Revenues**

**Governmental Expenses**

**Business-Type Activities**

**CITY OF DEER PARK, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

For the year ended September 30, 2020, revenues from governmental activities totaled \$53,840,159, a decrease of \$1,233,214 compared to the prior year. Capital grants and contributions decreased compared to prior year due to less contributions received from the Deer Park Fire Control, Prevention, and Emergency Medical Services District for construction projects. Charges for services decreased compared to prior year mainly due to fewer permits issued for building projects and citations issued for traffic violations. Other taxes and fees decreased largely due to less revenue collected for franchise fees and sales tax due to a decline in economic activity within the City. Investment earnings decreased due to a decrease in interest rates. These decreases in the current year were partially offset by increases in property and industrial tax revenue due to an increase in assessed values of properties and an increase in operating grants and contributions from the Coronavirus Relief Fund grant.

For the year ended September 30, 2020, expenses for governmental activities totaled \$45,211,865, a decrease of \$471,455. This decrease is mainly due to the decrease in net pension liability. This decrease was partially offset by an increase in personnel-related expenses.

Total revenues for business-type activities increased by a total of \$729,344 compared to the prior year. This was due to an increase and water and sewer rates. Total expenses for business-type activities increased by \$1,138,109. This increase is largely due to increases in expenses related to a sludge removal project.

#### **FINANCIAL ANALYSIS OF THE CITY'S FUNDS**

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

**Governmental Funds** – The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the year.

The City's governmental funds reflect a combined fund balance of \$63,342,713. Of this, \$117,676 is nonspendable, \$8,479,899 is restricted, \$9,025,740 is assigned, and \$45,719,398 is unassigned.

There was an increase in the combined fund balance of \$5,313,644 compared to the prior year. Compared to the prior year change in fund balance, the current year change in fund balance increased \$7,708,762. This is largely attributable to an increase in property tax revenues, industrial tax revenues, and intergovernmental revenue and a decrease in capital outlay expenditures.

The general fund is the chief operating fund of the City. At the end of the current year, unassigned fund balance of the general fund was \$45,719,398, while total fund balance reached \$46,974,831. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 114.52 percent of total general fund expenditures, while total fund balance represents 117.66 percent of the total general fund expenditures. The general fund demonstrated an overall increase in fund balance of \$5,068,206. Revenues increased \$1,525,452 compared to the prior year as a result of increases in property tax, industrial tax revenues, and intergovernmental revenue. Property and industrial tax revenue increased due to increases in the assessed value of properties. Intergovernmental revenue increased due to a Coronavirus Relief Fund grant. Expenditures increased \$2,096,648 compared to the prior year primarily due to increases in public safety, public works, parks and recreation, and capital outlay expenditures. Public safety and public works expenditures largely increased due to personnel-related expenditures. Parks and recreation expenditures increased mainly due to an increase in capital purchases and repairs for the City's municipal golf course. Capital outlay largely increased due to the purchase of a fire truck and miscellaneous capital projects.

**CITY OF DEER PARK, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

The debt service fund has a total fund balance of \$6,158,254, all of which is restricted for the payment of debt service. Revenues decreased due to the City lowering the debt service property tax rate and less investment earnings received due to a decrease in interest rates. The debt service fund transferred \$770,982 to the water and sewer fund for debt service payments.

The capital improvement fund had an increase in fund balance of \$1,133,765 due to transfers in from the general fund.

**Proprietary Funds** – The City's proprietary funds financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

### **GENERAL FUND BUDGETARY HIGHLIGHTS**

The City budgeted for the use of fund balance of \$380,650 in the general fund. However, the net change in fund balance increased by \$5,068,206, resulting in a positive variance of \$5,448,856.

Actual general fund revenues were greater than the amended budgeted revenues by \$1,921,919 during the fiscal year. The largest positive variances were from industrial taxes, sales taxes, intergovernmental revenue, and investment earnings.

Actual expenditures were less than budgeted amounts in total by \$5,028,013 for the fiscal year. The largest positive variances were in general government, recreation, athletics and aquatics, senior services, street maintenance, humane division, police, and fire department.

### **CAPITAL ASSETS**

At the end of the fiscal year, the City's governmental and business-type activities had invested \$162,312,395 in a variety of capital assets and infrastructure (net of accumulated depreciation). This represents a net increase of \$7,772,907.

Major capital asset events during the year included the following:

- Firearms Training Facility Improvements \$769,711
- Drainage Rehabilitation – Jefferson Avenue \$656,722
- Pumper Truck \$1,142,914
- Sanitary Sewer Rehabilitation – Regency Park \$345,276
- Air Street Sweeper \$270,901
- Construction in progress additions:
  - Street Replacement Project \$675,748
  - Wastewater Treatment Plant Expansion \$3,079,930
  - Irrigation Improvements to Golf Course \$286,085
  - Sanitary Sewer Rehabilitation – Park Meadows \$765,421
  - 2020 Waterline Project \$656,224
  - Sanitary Sewer Rehabilitation – X Street and Maxwell \$269,599

**DRAFT**  
**CITY OF DEER PARK, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

More detailed information about the City's capital assets is presented in note III.D. to the financial statements.

**LONG-TERM DEBT**

At the end of the current year, the City had total bonds and certificates of obligation outstanding of \$70,005,023. Of this amount, \$15,040,023 was general obligation debt and certificates of obligation accounted for \$54,965,000.

During the year, the City had a net decrease in bonds and certificates of obligation of \$2,560,001 as the result of current year principal payments. This decrease is partially offset by the issuance of Certificates of Obligations, Series 2019.

State statutes limit the amount of general obligation debt a governmental entity may issue to ten percent of its total assessed valuation. The current debt limitation for the City is \$296,977,123, which is well above the City's total general obligation debt outstanding.

More detailed information about the City's long-term liabilities is presented in note III.E. to the financial statements.

Current underlying ratings on debt issues are as follows:

	<b>Moody's Investors Service</b>	<b>Standard and Poor's</b>
General Obligation Bonds	Aa1	AAA
Certificates of Obligation	N/A	AAA

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The City budgeted for an increase in property tax revenues of \$542,846, which is a 2.68 percent increase from last year's budget. This increase is the result of new properties being added to the tax roll and increases in property values.

For the 2021 fiscal year budget, the City adopted a total tax rate of \$0.720 per \$100 of assessed value which is the same as the prior year rate. Compared to the prior year adopted budget, the City budgeted for a decrease in total general fund revenues/expenditures and other resources of approximately \$896,900.

City Council approved a current year budget decrease in revenues of \$787,826 and a decrease in expenses of \$1,451,924 compared to the prior year adopted budget for the water and sewer fund.

**CONTACTING THE CITY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide a general overview of the City's finances. Questions concerning this report or requests for additional financial information should be directed to the City of Deer Park, Director of Finance, 710 E. San Augustine, Deer Park, Texas 77536.

**CITY OF DEER PARK, TEXAS**  
**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET**  
**TO THE STATEMENT OF NET POSITION**  
**September 30, 2020**

Total fund balances for governmental funds \$ 63,342,713

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Capital assets, nondepreciable	28,922,097	
Capital assets, net depreciable	<u>73,635,563</u>	102,557,660

Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds. 1,414,291

Long-term liabilities and deferred outflows and deferred inflows related to pensions and other postemployment benefits (OPEB) are not due and payable in the current period and, therefore, are not reported in the funds.

Deferred loss on refunding	204,892	
Deferred gain on refunding	(90,396)	
Deferred outflows - pensions (TMRS)	2,350,724	
Deferred outflows - pensions (TESRS)	215,316	
Deferred outflows - OPEB (SDBF)	270,584	
Deferred outflows OPEB (Health)	5,065,450	
Deferred inflows - pensions (TMRS)	(5,104,616)	
Deferred inflows pensions (TESRS)	(945)	
Deferred inflows OPEB (SDBF)	(226,870)	
Deferred inflows OPEB (Health)	(55,313)	
Noncurrent liabilities due in one year	(5,401,944)

## CITY OF DEER PARK, TEXAS

### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended September 30, 2020

Net changes in fund balances - total governmental funds \$ 5,313,644

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital asset expenditures	7,235,643
Depreciation expense	(4,904,372)
Disposals, net	(173,071)
Capital contributions	31,344

The issuance of long-term debt (e.g., bonds and certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued; whereas, these amounts are deferred and amortized in the Statement of Activities. In addition, pension and other postemployment benefits (OPEB) expenses and the amortization of deferred items are accounted for in the Statement of Activities.

Principal payments	4,119,703
Amortization of deferred loss on refunding	(57,705)
Amortization of deferred gain on refunding	9,040
Amortization of premiums on bonds	195,875
Amortization of deferred outflows - pensions (TMRS)	(5,194,294)
Amortization of deferred outflows - pensions (TESRS)	74,019
Amortization of deferred outflows - OPEB (SDBF)	118,224
Amortization of deferred outflows - OPEB (Health)	412,342
Amortization of deferred inflows - pensions (TMRS)	(3,855,632)
Amortization of deferred inflows - pensions (TESRS)	26,022
Amortization of deferred inflows - OPEB (SDBF)	(170,954)
Amortization of deferred inflows - OPEB (Health)	(55,313)
Compensated absences	(225,324)
Bonds issued	(4,240,000)
Capital lease activity	(1,342,637)
Premium on bonds issued	(731,083)
Closure costs	(643)
Net pension liability - TMRS	8,908,221
Net pension liability - TESRS	(317,734)
Total OPEB liability - Health	(2,158,409)
Total OPEB liability - SDBF	(21,921)
Payment to refunding bond escrow agent	4,913,313

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 165,001

**Change in Net Position of Governmental Activities** \$ 8,073,299

See Notes to Financial Statements.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS**  
For the Year Ended September 30, 2020

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The City of Deer Park, Texas (the “City”) was incorporated under the laws of the State of Texas (the “State”) in 1948 and adopted a home-rule charter in December 1960. The charter provides for a “mayor council-manager” form of government with the elective body empowered to enact local legislation, adopt budgets, and determine policies. A mayor and six council members are elected to “at large” positions for two-year terms. The City Manager is appointed by the elective body and is responsible for the administrative affairs of the City.

The City provides for the following services: police, fire and emergency medical, water and sewer, street maintenance, sanitation, planning, parks and recreation, library, and general and administrative.

The City is an independent political subdivision of the State governed by an elected six-member council and a mayor and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements present the activities of the City (primary government) and its component units. Component units are legally separate organizations for which the City is financially accountable or other organizations whose nature and significant relationship with the City are such that exclusion would cause the City’s financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit’s board, and (i) either the City’s ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on the City.

The basic financial statements contain discretely presented component units. Discretely presented component units are reported in an aggregate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the City’s financial reporting entity are based on criteria prescribed by generally accepted accounting principles. The elements considered in determining that the City’s financial reporting entity status is that of a primary government are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Additionally, prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

**Discretely Presented Component Units**

**Deer Park Crime Control and Prevention District**

The Deer Park Crime Control and Prevention District (CCPD) is reported in the basic financial statements as a discretely presented component unit, which emphasizes that the CCPD is legally separate from the City. The authority for the CCPD is provided by Texas Local Government Code, Chapter 363. It was established to enhance public safety throughout the City and is funded by a dedicated one-fourth of one percent sales and use tax approved by the voters in May 2011

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

and effective on October 1, 2011 for a period of five years from the date it began to levy taxes. In May 2016, the voters approved the continuation of the CCPD for a period of 10 years. In the event of dissolution, the net position of the CCPD shall be conveyed to the City.

The CCPD is governed by a seven-member board of directors appointed by the City Council. The City has the ability to impose its will on the CCPD because it may remove appointed members at will, and it must approve the CCPD budget and any necessary budget amendments. Separate financial statements are not available for the CCPD.

**Deer Park Fire Control, Prevention, and Emergency Medical Services District**

The Deer Park Fire Control, Prevention, and Emergency Medical Services District (FCPEMSD) is reported in the basic financial statements as a discretely presented component unit, which emphasizes that the FCPEMSD is legally separate from the City. The authority for the FCPEMSD is provided by Texas Local Government Code, Chapter 344. It was established to enhance fire control and prevention and emergency medical services programs in the City and is funded by a dedicated one-fourth of one percent sales and use tax approved by the voters in May 2011 and effective on October 1, 2011 for a period of five years from the date it began to levy taxes. In May 2016, the voters approved the continuation of the FCPEMSD for a period of 10 years. In the event of dissolution, the net position of the FCPEMSD shall be conveyed to the City.

The FCPEMSD is governed by a seven-member board of directors appointed by the City Council. The City has the ability to impose its will on the FCPEMSD because it may remove appointed members at will, and it must approve the FCPEMSD budget and any necessary budget amendments. Separate financial statements are not available for the FCPEMSD.

**Deer Park Community Development Corporation**

The Deer Park Community Development Corporation (the “Corporation”) is reported in the basic financial statements as a discretely presented component unit, which emphasizes that the Corporation is legally separate from the City. The Corporation was established by a dedicated one-half of one percent sales and use tax approved by the voters in May 2015 for economic development purposes. The authority for the Corporation is provided by Texas Local Government Code, Chapter 505, Type B Corporations. The Corporation was formed for the purpose of financing various public park projects as authorized by Chapter 505 and the election. The dedicated one-half of one percent sales and use tax became effective on October 1, 2015 and the first sales tax receipts for the Corporation were received in December 2015.

The Corporation is governed by a seven-member board of directors appointed by the City Council. The City has the ability to impose its will on the Corporation because it may remove appointed members at will, and it must approve the Corporation budget and any necessary budget amendments. Separate financial statements are not available for the Corporation.

**B. Government-Wide Financial Statements**

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

**C. Basis of Presentation – Government-Wide Financial Statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the City's enterprise funds. Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the City's water and wastewater functions and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**D. Basis of Presentation – Fund Financial Statements**

The fund financial statements provide information about the City's funds, including its fiduciary fund and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

The City reports the following governmental funds:

The *general fund* is used to account for all financial transactions not properly includable in other funds. The principal sources of revenues include local property taxes, sales taxes, and franchise fees, licenses and permits, fines and forfeitures, and charges for services. Expenditures include general government, public safety, public works, parks and recreation, and community development. The general fund is always considered a major fund for reporting purposes.

The *debt service fund* is used to account for the payment of interest and principal on all general obligation bonds and other long-term debt of the City. The primary source of revenue for debt service is local property taxes. The debt service fund is considered a major fund for reporting purposes.

The *special revenue funds* are used to account for proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes. The special revenue funds are considered nonmajor funds for reporting purposes.

The *capital projects funds* are used to account for the expenditures of resources accumulated from the sale of long-term debt and related interest earnings for capital improvement projects. The capital improvement fund is considered a major fund for reporting purposes. The remaining capital project funds are considered nonmajor funds for reporting purposes.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

The City reports the following enterprise funds:

The *enterprise funds* are used to account for the operations that provide water and wastewater collection, wastewater treatment operations, and storm water utility operations. The services are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis will be financed or recovered primarily through user charges. The water and sewer fund is considered a major fund for reporting purposes. The storm water utility fund is considered a nonmajor fund for reporting purposes, but the City has elected to present it as major due to its significance.

Additionally, the City reports the following fiduciary fund type:

The *private-purpose trust fund* is used to account for disbursements made from investment earnings from an initial \$100,000 corpus established as a trust fund to benefit citizens age 55 and older. All disbursements of the senior citizens trust fund must be approved by the City of Deer Park Senior Citizen's Foundation Trust Committee. Activities are not budgeted and are controlled on an event-by-event basis.

During the course of operations, the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amounts are included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amounts are included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amounts are included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amounts are included as transfers in the business-type activities column.

#### **E. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide, proprietary, and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the City.

**F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

**1. Cash and Cash Equivalents**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and balances in statewide investment pools. For the purpose of the statement of cash flows, the proprietary fund types consider temporary investments with a maturity date of three months or less when purchased to be cash equivalents.

The City maintains a pooled cash account. Each fund whose monies are deposited in the pooled cash account has equity therein, and interest earned on the investment of these monies is allocated based upon relative equity at the previous month end. Amounts on deposit in interest bearing accounts and other investments are displayed on the combined balance sheet as "cash and equity in pooled cash."

**2. Investments**

Investments are stated at fair value, except for investment pools, which are stated at either amortized costs or net asset value. Investment income from the pools are allocated back to the respective funds based on each fund's equity in the pool. Investments in nonparticipating interest earning contracts, such as certificates of deposit, are reported at cost.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

The City has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, Texas Government Code. In summary, the City is authorized to invest in the following:

- Direct obligations of the U.S. government
- Direct obligations of the State
- Statewide investment pools
- Certificates of deposit that meet certain criteria

**3. Inventories and Prepaid Items**

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

**4. Restricted Assets**

Certain proceeds of bonds, as well as other resources set aside for specific purposes, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants or contractual agreements. Restricted assets of the enterprise fund are restricted by bond covenants for repayment of debt and to finance construction projects.

**5. Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental, business-type activities, or component units columns in the government-wide financial statements. In accordance with GASB Statement No. 34, infrastructure has been capitalized retroactively. Capital assets are defined by the City as assets with an initial, individual cost of \$5,000 or more and an estimated useful life of at least two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years:

<u>Asset Description</u>	<u>Estimated Useful Life</u>
Infrastructure	20 to 40 years
Buildings and Improvements	10 to 40 years
Vehicles and Equipment	5 to 20 years
Furniture and Fixtures	5 to 10 years

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

## 6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time.

Deferred outflows/inflows of resources are amortized as follows:

- Deferred outflows/inflows from pension/other postemployment benefits (OPEB) activities are amortized over the average of the expected service lives of pension/OPEB plan members, except for the net differences between the projected and actual investment earnings on the pension/OPEB plan assets, which are amortized over a period of five years.
- For employer pension/OPEB plan contributions that were made subsequent to the measurement date through the end of the City's fiscal year, the amount is deferred and recognized as a reduction to the net pension/OPEB liability during the measurement period in which the contributions were made.
- A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

At the fund level, the City has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from court fines and warrants, ambulance fees, and industrial district and property taxes. These amounts are deferred and recognized as inflows of resources in the period that the amounts become available.

## 7. Compensated Absences

Employees earn vacation based on years of service with the City within certain limits. Only accumulated vacation and earned compensatory time are paid upon termination of employment. Vacation pay is accrued when incurred in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

## 8. Long-Term Obligations

In government-wide financial statement and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of applicable bond premium or discount.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The property tax rate is allocated each year between the general and debt service funds. The full amount estimated to be required for debt service on general obligation debt is provided by the tax along with the interest earned in the debt service fund. Although a portion of the general obligation debt was directly related to the purchase of water and sewer infrastructure, the debt service expenditures are included in the governmental fund financial statements as they are expected to be paid from debt service tax revenues instead of water system revenues.

Assets acquired under the terms of a capital lease are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, capital lease transactions are recorded as other financing sources and as capital outlay expenditures in the applicable fund. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

#### **9. Net Position Flow Assumption**

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

#### **10. Fund Balance Flow Assumptions**

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### **11. Fund Balance Policies**

Fund balances of governmental funds are reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The City itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact are classified as nonspendable fund balance. Amounts that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions are classified as restricted.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City's highest level of decision-making authority. The City Council is the highest level of decision-making authority for the City that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as committed. The City Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

In accordance with the City's fund balance policy, City Council, by resolution, has authorized the City Manager as the official authorized to assign fund balance to a specific purpose. Assignments of fund balance by the City Manager do not require formal action by the City Council.

The City has established a target level of unassigned fund balance to alleviate revenue shortfalls and/or unanticipated expenditures to ensure the orderly and continued provision of services. The City shall strive to maintain an unassigned fund balance in the general fund equal to at least 25 percent of normal recurring operating costs, based on the current year's budgeted operating expenditures. Should unassigned fund balance fall below the goal or have a deficiency, the City will seek to reduce expenditures prior to increasing revenues to replenish fund balance within a reasonable timeframe.

## **12. Estimates**

The preparation of the financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

## **13. Pensions**

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Texas Municipal Retirement System (TMRS) and the Texas Emergency Services Retirement System (TESRS) and additions to/deductions from TMRS's and TESRS's fiduciary net position have been determined on the same basis as they are reported by TMRS and TESRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

**14. Other Postemployment Benefits**

The City participates in a single-employer, unfunded, defined benefit group-term life insurance plan operated by TMRS known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. Benefit payments are treated as being equal to the employer's yearly contributions for retirees. Benefit payments and refunds are due and payable in accordance with the benefit terms. Information about the City's total OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense is provided by TMRS from reports prepared by their consulting actuary.

The City also provides medical benefits to eligible retirees through a single-employer defined benefit plan (the "Plan"). This Plan is an unfunded, pay-as-you-go plan. Information about the City's total OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense is provided by the City's consulting actuary.

**G. Revenues and Expenditures/Expenses**

**1. Program Revenues**

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

**2. Property Taxes**

All taxes due to the City on real or personal property are payable at the Office of the City Tax Assessor-Collector and may be paid at any time after the tax rolls for the year have been completed and approved, which is October 1, or as soon thereafter as practicable. Taxes are due upon receipt and all taxes not paid prior to February 1 are deemed delinquent and are subject to such penalty and interest established by State law.

**3. Proprietary Funds Operating and Nonoperating Revenues and Expenses**

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. The enterprise funds also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

**II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles except the capital projects funds, which adopt project length budgets. The original budget is adopted by the City Council prior to the beginning of the fiscal year. The legal level of budgetary control, as defined by the charter, is the department level. The City Manager may transfer appropriations within a department without seeking the approval of City Council. The City Council may transfer any unencumbered funds from one department to another. Appropriations lapse at the end of the year, excluding capital project budgets. Supplemental budget appropriations were made for the year ended September 30, 2020.

**III. DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

As of September 30, 2020, the City had the following investments:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Years)</u>
TexSTAR	\$ 7,377,702	0.06
TexPool	19,096,440	0.09
Texas CLASS	7,684,448	0.14
Certificates of deposit	53,038,599	0.64
<b>Total Fair Value</b>	<b>\$ 87,197,189</b>	
Portfolio weighted average maturity		0.42

*Interest rate risk.* In accordance with its investment policy, the City manages its exposure to declines in fair values by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations and invest operating funds primarily in short-term securities.

*Credit risk.* The City’s investment policy limits investments in public fund investment pools rated as to investment quality not less than ‘AAA’ or ‘AAAm’, or at an equivalent rating by at least one nationally recognized rating service. As of September 30, 2020, the City’s investments in investment pools were rated ‘AAAm’ by Standard & Poor’s.

*Custodial credit risk – deposits.* In the case of deposits, this is the risk that in the event of a bank failure, the City’s deposits may not be returned to it. The City’s investment policy requires funds on deposit at the depository bank to be collateralized by securities. As of September 30, 2020, the combined balances of FDIC insurance, collateral pledged, and letters of credit exceeded the City’s bank balances. As of September 30, 2020, the discretely presented component units’ bank balances were collateralized with securities held by the pledging financial institution or covered by FDIC insurance.

*Custodial credit risk – investments.* For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City’s investment policy requires that it will seek to safekeep securities at financial institutions, avoiding physical possession. Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in the City’s safekeeping account prior to the release of funds.

**DRAFT**  
**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

**TexPool**

TexPool was established as a trust company with the Treasurer of the State as trustee, segregated from all other trustees, investments, and activities of the trust company. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. Finally, Standard & Poor's rates TexPool 'AAAm'. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as to the office of the Comptroller of Public Accounts for review.

TexPool is an external investment pool measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, Texpool must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity, and diversification requirements within TexPool. TexPool transacts at a net asset value of \$1.00 per share, has weighted average maturities of 60 days or less, and weighted average lives of 120 days or less. Investments held are highly rated by nationally recognized statistical rating organizations, have no more than five percent of portfolio with one issuer (excluding U.S. government securities), and can meet reasonably foreseeable redemptions. TexPool has a redemption notice period of one day and may redeem daily. TexPool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium, or national state of emergency that affects TexPool's liquidity. The City has no unfunded commitments related to TexPool.

**TexSTAR**

The Texas Short-Term Asset Reserve Fund (TexSTAR) is a local government investment pool organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. TexSTAR was created in April 2002 by contract among its participating governmental units and is governed by a board of directors. J.P. Morgan Investment Management, Inc. and Hilltop Securities Inc. act as co-administrators, providing investment management services, participant services, and marketing. JPMorgan Chase Bank and/or its subsidiary, J.P. Morgan Investor Services, Inc., provide custodial, transfer agency, fund accounting, and depository services.

TexSTAR is measured at amortized cost. TexSTAR's strategy is to seek preservation of principal, liquidity, and current income through investment in a diversified portfolio of short-term marketable securities. The City has no unfunded commitments related to TexSTAR. TexSTAR has a redemption notice period of one day and may redeem daily. TexSTAR's authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium, or national or state emergency that affects TexSTAR's liquidity.

**Texas CLASS**

The Texas Cooperative Liquid Assets Securities System Trust (CLASS) is a public funds investment pool under Section 2256.016 of the Public Funds Investment Act, Texas Government Code, as amended. CLASS is created under an amended and restated trust agreement, dated as of December 14, 2011 (the "Agreement"), among certain Texas governmental entities investing in CLASS (the

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

“Participants”), with Cutwater Investor Services Corporation as program administrator and Wells Fargo Bank Texas, NA as custodian. CLASS is not SEC registered and is not subject to regulation by the State. Under the Agreement, however, CLASS is administered and supervised by a seven-member board of trustees (the “Board”), whose members are investment officers of the Participants, elected by the Participants for overlapping two-year terms. In the Agreement and by resolution of the Board, CLASS has contracted with Cutwater Investors Service Corporation to provide for the investment and management of the public funds of CLASS. Separate financial statements for CLASS may be obtained from CLASS’ website at [www.texasclass.com](http://www.texasclass.com).

**B. Receivables**

Amounts recorded as receivable as of September 30, 2020 for the City’s individual major and nonmajor funds, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Debt Service</u>	<u>Capital Improvements</u>	<u>Nonmajor Governmental</u>	<u>Water and Sewer</u>	<u>Storm Water Utility</u>	<u>Component Units</u>
Taxes	\$ 955,929	\$ 328,928	\$ -	\$ -	\$ -	\$ -	\$ 1,129,432
Accounts	2,738,121	-	201,239	205,281	1,531,671	40,854	-
Ambulance	2,655,227	-	-	-	-	-	-

Legal Debt Margin

The City is authorized to issue debt up to 10% of the average full valuation of taxable real property which is currently \$296,977,123. The net indebtedness subject to the debt limit is \$10,133,602 resulting in a legal debt margin of \$286,843,521.

**DRAFT**  
**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations of the City for which its full faith and credit are pledged. Repayment of general obligation bonds for governmental activities is from taxes levied on all taxable property located within the City, while business-type activities will be paid with utility rate revenues. A number of limitations and restrictions are contained in the various bond ordinances. The City has complied with all significant limitations and restrictions.

During the fiscal year, the City issued \$4,240,000 of Limited Tax Refunding Bonds, Series 2019 (the “Bonds”) to provide resources for all future debt service payments of \$4,825,000 of Certificates of Obligation, Series 2010. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the Statement of Net Position. The net carrying amount of the old debt exceeded the reacquisition price by \$99,436. This amount is being amortized over the remaining life of the refunded debt, which is the same as the life of the new debt. This current refunding was undertaken to reduce total debt service payments over the next 10 years by \$690,125 and resulted in an economic gain of \$619,851.

Certificates of Obligations

The City has issued tax and revenue certificates of obligation to provide funds for the acquisition and construction of major capital facilities. Certificates of obligation are direct obligations of the City for which its full faith and credit are pledged. Repayment of certificates for governmental activities is from taxes levied on all taxable property located within the City, while business-type activities will be paid with utility rate revenues. A number of limitations and restrictions are contained in the various bond ordinances. The City has complied with all significant limitations and restrictions.

During the fiscal year, the City issued Certificates of Obligation, Series 2019 (the “Certificates”) in the amount of \$4,185,000. Proceeds from the sale of the Certificates will be used for the repair and renovation of, the construction of improvements to, and the equipment of the water and sewer system. The Certificates will mature on March 15, 2039. The interest rates of the Certificates range from 3.00 to 5.00 percent.

Capital Leases

The City has entered into lease agreements as lessee for financing the acquisition of equipment, principally consisting of vehicles and equipment. These leases qualify as capital leases for accounting purposes (titles transfer at the end of the lease terms) and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception. Capital leases bear interest rates ranging from 1.39 percent to 2.87 percent and have remaining maturity dates ranging from 2021 to 2028.

Deer Park Community Development Corporation

On May 9, 2015, voters approved a dedication of 0.50% of sales tax for various projects in an amount not to exceed \$20,000,000. The Deer Park Community Development Corporation (DPCDC) was created. The City issued Certificates of Obligation, Series 2016 in the amount of \$9,450,000 and Certificates of Obligation, Series 2017 in the amount of \$2,700,000 to finance various voter approved projects in which the DPCDC has pledged sales tax revenues to reimburse the City for the related debt service payments.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

Annual requirements to satisfy these obligations are as follows:

Year Ending Sep 30	Governmental Activities

<b>Total</b>	<b>\$ 772,685</b>	<b>\$ 41,253</b>	<b>\$ 813,938</b>

The assets acquired through capital leases are as follows:

Assets:	Governmental Activities	Business-Type Activities	Component Units
Machinery and equipment	\$ 1,855,518	\$ 435,228	\$ 1,163,743
Less: accumulated depreciation	(309,786)	(217,614)	(193,957)
<b>Total</b>	<b>\$ 1,545,732</b>	<b>\$ 217,614</b>	<b>\$ 969,786</b>

**Federal Arbitrage**

The Tax Reform Act of 1986 instituted certain arbitrage restrictions consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed, or are not performed correctly, a substantial liability to the City could result. The City periodically engages an arbitrage consultant to perform the calculations in accordance with the rules and regulations of the IRS.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

**F. Interfund Receivables, Payables, and Transfers**

Transfers between the primary government funds during the year were as follows:

<u>Transfer In</u>	<u>Transfer Out</u>	<u>Amounts</u>
General	Water and sewer	\$ 104,383
General	Nonmajor governmental	310,609
Debt service	Nonmajor governmental	21,377
Capital improvement	General	2,958,447
Water and sewer	Debt service	770,982
Solid waste	Water and sewer	39,297
Solid waste	General	159,297
		<u>\$ 4,364,392</u>

Amounts transferred between funds relate to the following activities:

- Transfers to the debt service fund were made to transfer interest earned from bond funds for the repayment of debt service and debt service related expenditures in accordance with applicable ordinances and federal regulations.
- The general fund transferred \$2,958,447 to the capital improvement fund to fund current and future capital improvement projects.
- Transfers to the general fund were made by the water and sewer fund and the nonmajor governmental funds as contributions to the general fund for various governmental expenditures.
- Transfers to the water and sewer fund were made by the debt service fund for current year debt service payments.
- Transfers to the solid waste fund were made by the general fund and water and sewer fund as additional funding for various projects.

The composition of interfund balances as of year end were as follows:

<u>Due To</u>	<u>Due From</u>	<u>Amounts</u>
General	Nonmajor governmental	<u>\$ 5,866</u>

Amounts recorded as due to/from are considered to be a temporary loans and will be repaid during the following year.

**G. Fund Equity**

As of September 30, 2020, \$742,258 of the City's total fund balance is restricted by enabling legislation.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

**H. Restatement of Net Position**

The City has restated beginning net position for governmental activities to reduce an overstatement of capital assets that were recognized in error. A capital project was recognized as an addition when completed but not shown as a reduction in construction in progress.

	<b>Governmental Activities</b>
<b>Beginning net position as reported</b>	\$ 106,007,021
Restate capital assets	(1,413,055)
<b>Beginning net position - restated</b>	<b>\$ 104,593,966</b>

**IV. OTHER INFORMATION**

**A. Risk Management**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the City participates along with 2,617 other entities in the Texas Municipal League’s Intergovernmental Risk Pools (the “Pool”). The Pool purchases commercial insurance at group rates for participants in the Pool. The City has no additional risk or responsibility to the Pool, outside of the payment of insurance premiums. The City has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

**B. Contingent Liabilities**

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures that may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in several lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City’s management that resolution of these matters will not have a material adverse effect on the financial condition of the City.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors. No claim liabilities are reported at year end.

The continued spread of the COVID-19 pandemic has given a rise in uncertainties that may have a significant negative impact on the operating activities and results of the City. The occurrence and extent of such impact will depend on future developments, including (i) the duration and spread of the virus, (ii) government quarantine measures, (iii) the effects on the financial markets, and (iv) the effects on the economy overall, all of which are unknown at this time.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

**C. Pension Plans**

**1. Texas Municipal Retirement System**

Plan Description

The City participates as one of 888 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by TMRS. TMRS is an agency created by the State and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the “TMRS Act”) as an agent multiple-employer retirement system for municipal employees in the State. The TMRS Act places the general administration and management of TMRS with a six-member Board of Trustees (the “Board”). Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State. TMRS’s defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report that can be obtained at [www.tmr.com](http://www.tmr.com).

All eligible employees of the City are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee’s contributions, with interest, and the City-financed monetary credits, with interest, were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a partial lump sum distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75 percent of the member’s deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	<u>2020</u>	<u>2019</u>
Employee deposit rate	7.00%	7.00%
Matching ratio (City to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service requirement eligibility (expressed as age/yrs of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% Repeating, Transfers	100% Repeating, Transfers
Annuity increase (to retirees)	50% of CPI	50% of CPI

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Employees Covered by Benefit Terms

At the December 31, 2019 valuation and measurement date, the following employees were covered by the benefit terms:

	<b>Primary Government</b>	<b>Component Units</b>
Inactive employees or beneficiaries currently receiving benefits	198	6
Inactive employees entitled to, but not yet receiving, benefits	146	4
Active employees	302	9
<b>Total</b>	<b>646</b>	<b>19</b>

Contributions

The contribution rates for employees in TMRS are either five percent, six percent, or seven percent of employee gross earnings, and the City-matching percentages are either 100 percent, 150 percent, or 200 percent, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute seven percent of their annual gross earnings during the fiscal year. The contribution rates for the City were 13.78 percent and 14.10 percent in calendar years 2020 and 2019, respectively. For the calendar year 2020 the City elected to pay the same rate as 2019 of 14.10 percent. The City's contributions to TMRS for the fiscal year ended September 30, 2020 were \$2,998,530 which were more than the required contributions.

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2019 and the Total Pension Liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The TPL in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Overall payroll growth	3.00% per year
Investment rate of return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109 percent and female rates multiplied by 103 percent. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with male rates multiplied by 109

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

percent and female rates multiplied by 103 percent with a three-year set-forward for both males and females. In addition, a three percent minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the three percent floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2010 to December 31, 2014. They were adopted in 2015 and first used in the December 31, 2015 actuarial valuation. The post-retirement mortality assumption for healthy annuitants and annuity purchase rate are based on the mortality experience investigation study covering 2009 through 2011 and dated December 31, 2013. In conjunction with these changes first used in the December 31, 2013 valuation, TMRS adopted the Entry Age Normal actuarial cost method and a one-time change to the amortization policy. Plan assets are managed on a total return basis with an emphasis on both capital appreciation, as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, the actuary focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive).

The target allocation and best estimates of real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (Arithmetic)</u>
Global Equity	30.0%	5.30%
Core Fixed Income	10.0%	1.25%
Non-Core Fixed Income	20.0%	4.14%
Real Return	10.0%	3.85%
Real Estate	10.0%	4.00%
Absolute Return	10.0%	3.48%
Private Equity	10.0%	7.75%
<b>Total</b>	<b>100.0%</b>	

Discount Rate

The discount rate used to measure the TPL was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

For the Year Ended September 30, 2020

Sensitivity of the NPL to Changes in the Discount Rate

The following presents the NPL of the City, calculated using the discount rate of 6.75 percent, as well as what the City's NPL would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	<b>1% Decrease in Discount Rate (5.75%)</b>	<b>Discount Rate (6.75%)</b>	<b>1% Increase in Discount Rate (7.75%)</b>
Primary Government's Net Pension Liability	\$ 25,040,397	\$ 6,086,756	\$ (9,512,372)
	<b>1% Decrease in Discount Rate (5.75%)</b>	<b>Discount Rate (6.75%)</b>	<b>1% Increase in Discount Rate (7.75%)</b>
Component Units' Net Pension Liability	\$ 580,810	\$ 110,521	\$ (276,630)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in a separately-issued TMRS financial report. That report may be obtained at [www.tmr.com](http://www.tmr.com).

Pension Expense and Deferred Outflows/Deferred Inflows of Resources Related to Pensions

For the fiscal year ended September 30, 2020, the City recognized pension expense of \$3,127,967 for the primary government and \$89,113 for the component units.

At September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Primary Government</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual economic experience	\$ 4,746	\$ 1,795,562
Changes in actuarial assumptions	407,368	-
Difference between projected and actual investment earnings	-	4,003,178
Contributions subsequent to the measurement date	2,268,412	-
<b>Total</b>	<b>\$ 2,680,526</b>	<b>\$ 5,798,740</b>

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

	<b>Component Units</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual economic experience	\$ 205	\$ 48,162
Changes in actuarial assumptions	8,652	-

<b>Total</b>	<b>\$ (5,386,626)</b>	<b>\$ (178,396)</b>

## 2. Texas Emergency Services Retirement System

### Plan Description

The City participates in a cost-sharing multiple employer pension plan that has a special funding situation. The plan is administered by the TESRS and established and administered by the State to provide pension benefits for emergency services personnel who serve without significant monetary remuneration. At August 31, 2019, there were 237 contributing fire and/or emergency services department members participating in TESRS. Eligible participants include volunteer emergency services personnel who are members in good standing of a member department.

On August 31, 2019, the TESRS system membership consisted of:

Retirees and beneficiaries currently receiving benefits	3,649
Terminated members entitled to, but not yet receiving, benefits	1,842
Active participants	3,702

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

Pension Plan Fiduciary Net Position

Detailed information about TESRS's fiduciary net position is available in a separately-issued CAFR that includes financial statements and Required Supplementary Information. TESRS issues a publicly available annual financial report, which includes financial statements, notes, and Required Supplementary Information, and can be obtained at [www.tesrs.org](http://www.tesrs.org). The separately issued actuarial valuations that may be of interest are also available at the same link.

Benefits Provided

Senate Bill 411, 65th Legislature, Regular Session (1977), created TESRS and established the applicable benefit provisions. The 79th Legislature, Regular Session (2005), re-codified the provisions and gave the TESRS Board of Trustees (the "Board") authority to establish vesting requirements, contribution levels, benefit formulas, and eligibility requirements by Board rule. The benefit provisions include retirement benefits, as well as death and disability benefits. Members are 50 percent vested after the tenth year of service, with the vesting percentage increasing ten percent for each of the next five years of service so that a member becomes 100 percent vested with 15 years of service.

Upon reaching age 55, each vested member may retire and receive a monthly pension equal to his vested percentage multiplied by six times the governing body's average monthly contribution over the member's years of qualified service. For years of service in excess of 15 years, this monthly benefit is increased at the rate of 6.2 percent compounded annually. There is no provision for automatic postretirement benefit increases.

On and off-duty death benefits and on-duty disability benefits are dependent on whether or not the member was engaged in the performance of duties at the time of death or disability. Death benefits include a lump sum amount or continuing monthly payments to a member's surviving spouse and dependent children.

Funding Policy

Contributions are made by governing bodies for the participating departments. No contributions are required from the individuals who are members of TESRS, nor are they allowed. The governing bodies of each participating department are required to make contributions for each month a member performs emergency services for a department (this minimum contribution is \$36 per member and the department may make a higher monthly contribution for its members). This is referred to as a Part One contribution, which is the legacy portion of the TESRS contribution that directly impacts future retiree annuities.

The State is required to contribute an amount necessary to make TESRS "actuarially sound" each year, which may not exceed one-third of the total of all contributions made by participating governing bodies in a particular year.

The Board rule defining contributions was amended effective July 27, 2014 to add the potential for actuarially determined Part Two contributions that would be required only if the expected future annual contributions from the State are not enough with the Part One contributions to provide an adequate contribution arrangement as determined by the most recent actuarial valuation. This Part Two portion, which is actuarially determined as a percentage of the Part One portion (not to exceed 15 percent), is to be actuarially adjusted near the end of each even-numbered calendar year based on

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

the most recent actuarial valuation. Based on the actuarial valuation as of August 31, 2016, the Part Two contributions were established by the Board to be two percent of the Part One contributions beginning September 1, 2017. Based on the August 31, 2018 actuarial valuation, the Part Two contributions are not required for an adequate contribution arrangement.

Additional contributions may be made by governing bodies within two years of joining TESRS to grant up to ten years of credit for service per member. Prior service purchased must have occurred before the department began participation in TESRS.

A small subset of participating departments has a different contribution arrangement that is being phased out over time. In this arrangement, contributions made in addition to the monthly contributions for active members are made by local governing bodies on a pay-as-you-go basis for members who were pensioners when their respective departments merged into TESRS. There is no actuarial impact associated with this arrangement as the pay-as-you-go contributions made by these governing bodies are always equal to benefit payments paid by TESRS.

Contributions

The contribution requirement per active emergency services personnel member per month is not actuarially determined. Rather, the minimum contribution provisions were set by Board rule, and there is no maximum contribution rate. For the fiscal year ending August 31, 2019, total contributions (dues, prior service, and interest on prior service financing) of \$139,438 were paid by the City. The State appropriated \$1,329,224 for the fiscal year ending August 31, 2019 to TESRS as a whole.

Actuarial Assumptions

The TPL in the August 31, 2018 actuarial valuation, rolled forward to August 31, 2019, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial valuation date	8/31/2018
Actuarial cost method	Entry age
Amortization method	Level dollar, open
Remaining amortization period	30 years
Asset valuation method	Market value smoothed by a 5-year deferred recognition method with an 80%/120% corridor on market value
Actuarial assumptions:	
Investment rate of return*	7.75%
Projected salary increases	N/A
*Includes inflation at	3.00%
Cost-of-living adjustments	None

Mortality rates were based on the RP-2000 Combined Healthy Lives Mortality Tables for males and for females projected to 2024 by scale AA. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future net real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These components are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

(currently 5.01%) and by adding expected inflation (3.00%). In addition, the final 7.75 percent assumption reflected a reduction of 0.26 percent for adverse deviation. The target allocation and expected arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Net Real Rate of Return</u>
Equities		
Large cap domestic	32.0%	5.81%
Small cap domestic	15.0%	5.92%
Developed international	15.0%	6.21%
Emerging markets	5.0%	7.18%
Master limited partnership	5.0%	7.61%
Real Estate	5.0%	4.46%
Fixed income	23.0%	1.61%
	<b>Total</b>	
	<u>100.0%</u>	
Weighted average		5.01%

Discount Rate

The discount rate used to measure the TPL was 7.75 percent. No projection of cash flows was used to determine the discount rate because the August 31, 2018 actuarial valuation showed that expected contributions would pay the normal cost and amortize the unfunded actuarial accrued liability in 30 years using the conservative level dollar amortization method. Because of the 30-year amortization period with the conservative amortization method and with a lower value of assets, TESRS's fiduciary net position is expected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

Discount Rate Sensitivity Analysis

The following presents the NPL of the City, calculated using the discount rate of 7.75 percent, as well as what the City's NPL would be if it were calculated using a discount rate that is one percentage point lower (6.75%) or one percentage point higher (8.75%) than the current rate:

	<u>1% Decrease in Discount Rate (6.75%)</u>	<u>Discount Rate (7.75%)</u>	<u>1% Increase in Discount Rate (8.75%)</u>
City's proportionate share of the net pension liability	\$ 1,388,972	\$ 781,487	\$ 374,847

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Pension Liability, Pension Expense, and Deferred Outflows/Deferred Inflows of Resources Related to Pensions

At September 30, 2020, the City reported a liability of \$781,487 for its proportionate share of TESRS's NPL. The amount recognized by the City as its proportionate share of the NPL, the related State support, and the total portion of the NPL that was associated with the City were as follows:

City's proportionate share of the collective NPL	\$	781,487
*State's proportionate share that is associated with the City		231,810
<b>Total</b>	<b>\$</b>	<b><u>1,013,297</u></b>

*\*Calculated using the City's proportionate share of contributions multiplied by the State's share of the collective NPL.*

The TPL used to calculate the NPL was determined by an actuarial valuation as of August 31, 2018. GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68) requires the NPL to be measured as of a date no earlier than the end of the employer's prior fiscal year. TESRS did not roll forward (nor did they provide the necessary information for the participants to roll forward) the NPL to be measured as of a date no earlier than the end of the City's prior fiscal year. While the City acknowledges that the measurement date does not fall within this 12-month period, the City elected to honor the conservatism principle and report an NPL measured as of August 31, 2019. The City used the assumption that any differences in the NPL measured as of August 31, 2019 versus September 30, 2019 would be immaterial. The employer's proportion of the NPL was based on the employer's contributions to TESRS relative to the contributions of all employers to TESRS for the period September 1, 2018 through August 31, 2019.

At August 31, 2019, the employer's proportion of the collective NPL was 2.757 percent, which was an increase of 0.617 percent from its proportion measured as of August 31, 2018.

There were no changes of assumptions or other inputs that affected measurement of the TPL during the measurement period.

There were no changes of benefit terms that affected measurement of the TPL during the measurement period.

For the measurement year ended August 31, 2019, the City recognized pension expense of 185,180. The City recognized on-behalf revenues of \$10,870 calculated by taking the State's total contributions to TESRS multiplied by the City's proportionate share.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

At September 30, 2020, the City reported its proportionate share of the TESRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Net difference between projected and actual investment earnings	\$ 100,637	\$ -
Differences between expected and actual experience	-	945
Contributions paid to TESRS subsequent to the measurement date	114,679	-
<b>Total</b>	<b>\$ 215,316</b>	<b>\$ 945</b>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Fiscal Year Ended September 30</b>	<b>Pension Expense</b>
2021	\$ 21,217
2022	11,125
2023	24,733
2024	42,617
<b>Total</b>	<b>\$ 99,692</b>

**D. Other Postemployment Benefits**

**1. Healthcare Plan**

Plan Description

The City provides medical benefits to eligible retirees through an unfunded single-employer defined benefit plan (the "Plan"). The City pays a portion of the current monthly contribution rate for individual medical benefits for retirees meeting certain eligibility requirements. All active employees who retire directly from the City and meet the eligibility criteria may participate. Eligibility is based on retirement at, or after, age 55 and 20 years of service (age plus years of service equals 80). If age 56 or older on or before December 31, 2003, an employee may retire with 10 years of service if age plus years of service equals 75. If hired prior to October 1, 2001, an employee may retire with 25 years of service without regard to age. There is no City subsidy for dependent coverage and the cost of elected dependent coverage is paid entirely by the retiree. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No.75, *Accounting and Financial Reporting for Other Postemployment Benefits other than Pensions* (GASB 75).

Benefits

Medical benefits continue after age 65 with the medical coverage offered as a supplement to Medicare benefits. Dental and life insurance benefits are also made available to retirees, but these benefits are not subsidized by the City and are not included the actuarial valuation. The retiree pays a percentage of the contribution for individual pre-65 medical coverage based on points (retirement age plus years of service). This contribution ranges from 25% for 80 or more points to 92.5% for 71 or less points. The retiree pays 20% of the individual Medicare supplement benefit contribution for any dependent coverage elected. Pre-65 medical benefits are provided through the TML

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Intergovernmental Employee Benefits Pool and Medicare supplement benefits are provided through United Healthcare.

Participation in Plan as of September 30, 2020 is summarized below:

	<u>Primary Government</u>	<u>Component Units</u>
Inactive employees or beneficiaries currently receiving benefits	59	3
Inactive employees entitled to, but not yet receiving, benefits	-	-
Active employees	284	12
<b>Total</b>	<u>343</u>	<u>15</u>

Total OPEB Liability

The City's total OPEB liability of \$26,001,292 for the primary government and \$783,967 for the component units were determined by an actuarial valuation as of December 31, 2018, rolled forward to measure as of September 30, 2020.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the December 31, 2018 actuarial valuation, rolled forward to measurement date September 30, 2020, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary increases	3.50% to 11.50% including inflation
Discount rate*	2.41%
Health care trend rate	Pre-65: Initial rate of 7.00% declining to an ultimate rate of 4.25% after 13 years; Post-65: Initial rate of 6.30% declining to an ultimate rate of 4.25% after 13 years
Actuarial cost method	Individual entry-age normal
Demographic assumptions	Based on the experience study covering the four-year period ending December 31, 2018 as conducted for the TMRS.
Mortality	For healthy retirees, the gender-distinct 2019 Municipal Retirees of Texas mortality tables are used. The rates are projected on a fully generational basis using the ultimate mortality improvement rates in the MP tables published through 2019 to account for future mortality improvements.
Health care trend rate	Pre-65: Initial rate of 7.00% declining to an ultimate rate of 4.25% after 13 years; Post-65: Initial rate of 6.30% declining to an ultimate rate of 4.25% after 13 years
Participation rates	75% for retirees eligible for 75% subsidy; 20% for retirees eligible for 50% subsidy; 0% for retirees not eligible for at least a 50% subsidy; 0% for those retiring before age 50

\* The discount rate is based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of September 30, 2020.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

Changes in the Total OPEB Liability

	<u>Total OPEB Liability</u>	
	<u>Primary Government</u>	<u>Component Units</u>
Changes for the year:		
Service cost	\$ 1,017,161	\$ 45,043
Interest	644,964	28,562
Changes of assumptions	1,307,011	57,880
Difference between expected and actual experience	(72,693)	(3,219)
Benefit payments	(383,397)	(16,978)
<b>Net Changes</b>	<u>2,513,046</u>	<u>111,288</u>
Balance at September 30, 2019	23,488,246	672,679
<b>Balance at September 30, 2020</b>	<u><u>\$ 26,001,292</u></u>	<u><u>\$ 783,967</u></u>

Change of assumptions reflected a change in the discount rate from 2.75 percent as of September 30, 2019 to 2.41 percent as of September 30, 2020.

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate and Healthcare Costs Trend Rate Assumptions

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate (1.45%)</u>	<u>Discount Rate (2.41%)</u>	<u>1% Increase in Discount Rate (3.41%)</u>
Primary Government's Total OPEB Liability	<u>\$ 31,416,870</u>	<u>\$ 26,001,292</u>	<u>\$ 21,784,993</u>
Component Units' Total OPEB Liability	<u>\$ 947,561</u>	<u>\$ 783,967</u>	<u>\$ 656,449</u>

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using the assumed trend rates if that rate was one percentage point lower or one percentage point higher than the current trend rates:

	1% Decrease	Current Healthcare Cost Trend Rate Assumption	1% Increase
Primary Government's Total			
OPEB Liability	\$ 20,842,059	\$ 26,001,292	\$ 33,008,744
	1% Decrease	Current Healthcare Cost Trend Rate Assumption	1% Increase
Component Units' Total			
OPEB Liability	\$ 624,369	\$ 783,967	\$ 1,001,550

OPEB Expense and Deferred Outflows/Inflows of Resources

For the year ended September 30, 2020, the City recognized OPEB expense of \$2,468,551 for the primary government and \$122,059 for the component units.

At September 30, 2020, the City reported deferred outflows of resources related to OPEB from the following sources:

	Primary Government	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in actuarial assumptions	\$ 3,771,942	\$ -
Difference between expected and actual experience	2,055,928	64,401
<b>Total</b>	\$ 5,827,870	\$ 64,401
	Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in actuarial assumptions	\$ 118,319	\$ -
Difference between expected and actual experience	52,728	2,852
<b>Total</b>	\$ 171,047	\$ 2,852

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended</u> <u>September 30</u>	<u>OPEB Expense</u>	
	<u>Primary</u> <u>Government</u>	<u>Component</u> <u>Units</u>
2021	\$ 830,640	\$ 24,240
2022	830,640	24,240
2023	830,640	24,240
2024	830,640	24,240
2025	830,640	24,240
Thereafter	1,610,269	46,995
<b>Total</b>	<b>\$ 5,763,469</b>	<b>\$ 168,195</b>

**2. TMRS Supplemental Death Benefits**

Plan Description

The City participates in an OPEB plan administered by TMRS. TMRS administers the defined benefit group-term life insurance plan known as the SDBF. This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. Employers may terminate coverage under, and discontinue participation in, the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The member city contributes to the SDBF at a contractually required rate (based on the covered payroll of employee members) as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees' entire careers. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75. As such, the SDBF is considered to be a single-employer unfunded OPEB defined benefit plan with benefit payments treated as being equal to the employer's yearly contributions for retirees.

The contributions to the SDBF are pooled for investment purposes with those of the Pension Trust Fund (PTF). The TMRS Act requires the PTF to allocate a five percent interest credit from investment income to the SDBF on an annual basis each December 31 based on the mean balance in the SDBF during the year.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Benefits

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered an OPEB and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan (i.e., no assets are accumulated). Participation in the SDBF as of December 31, 2019 is summarized below:

Inactive employees or beneficiaries currently receiving benefits	153
Inactive employees entitled to, but not yet receiving, benefits	36
Active employees	311
<b>Total</b>	<b>500</b>

Total OPEB Liability

The City's total OPEB liability of \$1,095,711 was measured as of December 31, 2019 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary increases	3.50% to 11.50% including inflation
Discount rate	2.75%*
Retirees' share of benefit-related costs	Zero
Administrative expenses	All administrative expenses are paid through the PTF and accounted for under reporting requirements under GASB 68.
Mortality rates-service retirees	2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP.
Mortality rates-disabled retirees	2019 Municipal Retirees of Texas Mortality Tables with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

\* The discount rate is based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2019.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study for the period December 31, 2014 to December 31, 2018.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Changes in the Total OPEB Liability

		<u>Total OPEB Liability</u>
Changes for the year:		
Service cost	\$	30,862
Interest		40,257
Difference between expected and actual experience		(213,987)
Changes of assumptions		173,019
Benefit payments*		(8,230)
	<b>Net Changes</b>	<u>21,921</u>
Balance at December 31, 2018		1,073,790
	<b>Balance at December 31, 2019</b>	<u><u>\$ 1,095,711</u></u>

\* Benefit payments are treated as being equal to the employer's yearly contributions for retirees due to the SDBF being considered an unfunded OPEB plan under GASB 75.

The discount rate decreased from 3.71 percent as of December 31, 2018 to 2.75 percent as of December 31, 2019. There were no other changes of assumptions or other inputs that affected measurement of the total OPEB liability during the measurement period.

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate (1.75%)</u>	<u>Discount Rate (2.75%)</u>	<u>1% Increase in Discount Rate (3.75%)</u>
Total OPEB Liability	\$ 1,329,615	\$ 1,095,711	\$ 914,383

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended September 30, 2020, the City recognized OPEB expense of \$83,309.

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

The City reported deferred outflows/inflows of resources related to OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Changes in actuarial assumptions	\$ 188,791	\$ 45,804
Difference between expected and actual experience	75,174	181,066
Contributions subsequent to the measurement date	6,619	-
	\$ 270,584	\$ 226,870

\$6,619 is reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability for the fiscal year ending September 30, 2021.

Amounts reported as deferred outflows/inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<b>Fiscal Year Ended September 30</b>	<b>OPEB Expense</b>
2021	\$ 12,190
2022	12,190
2023	12,190
2024	6,543
2025	(2,870)
Thereafter	(3,148)
<b>Total</b>	<b>\$ 37,095</b>

**3. Deferred Compensation Plan**

The City offers its employees a deferred compensation plan (the “Plan”) created in accordance with Internal Revenue Code Section 457. The Plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The Plan’s trust arrangements are established to protect deferred compensation amounts of employees under the Plan from any other use than intended under the Plan (eventual payment to employees deferring the compensation) in accordance with federal tax laws. Amounts of compensation deferred by employees under Plan provisions are disbursed monthly by the City to a third-party administrator. The third-party administrator handles all funds in the Plan and makes investment decisions and disburses funds to employees in accordance with Plan provisions.

**E. Industrial District Contracts**

A significant portion of the City’s revenue is derived from separate contractual agreements (the “Contracts”) with 27 separate industrial companies (the “Companies”) that lie within the City’s extraterritorial jurisdiction (known as the “Industrial District”). In 2007, the City and the Companies located in the Industrial District agreed to new Contracts extending to December 31, 2014. The City completed negotiations on new Contracts with the Companies located in the Industrial District, with a new expiration date of December 31, 2026. These Contracts call for each Company to annually render to the City a written description of its land, improvements, and tangible personal property as

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

of the immediately preceding January 1 (based on the opinion of the legal counsel for the Harris County Appraisal District that the value of land and improvements that were not physically located within the corporate area of the City could not be included in the City’s tax roll). The Companies have agreed to pay an amount “in lieu” of taxes in the unannexed area of an amount equal to the sum of 63 percent of the amount of ad valorem taxes that would be payable to the City if all of the Company’s land and improvements that existed on each January 1 had been within the corporate limits of the City. Under the new Contract, the Companies have agreed to pay an amount “in lieu” of taxes in the unannexed area of an amount equal to the sum of 63 percent of the amount of ad valorem taxes that would be payable to the City if all of the Company’s land and improvements that existed on January 1, 2015, 2016, 2017, and 2018 had been within the corporate limits of the City; 64 percent of the amount of ad valorem taxes that would be payable to the City if all of the Company’s land and improvements that existed on January 1, 2019, 2020, 2021, and 2022 had been within the corporate limits of the City; and 65 percent of the amount of ad valorem taxes that would be payable to the City if all of the Company’s land and improvements which existed on January 1, 2023, 2024, 2025, and 2026 had been within the corporate limits of the City. Payments “in lieu” of taxes on new construction will be based on percentages of new value as described in the Contract as ten percent the first year, 20 percent the second year, 30 percent the third year, 40 percent the fourth year, 50 percent the fifth year, and 100 percent after the fifth year of operations. For new construction in excess of \$100,000,000, the new Contracts allow for each Company to negotiate these payment percentages. If those particular negotiations are not completed by January 1, the stated Contract rates will apply to the new construction value. During the fiscal year, the City received revenues of \$12,660,382 related to these Contracts.

**F. Operating Leases**

Effective May 29, 2013, the City entered into a lease agreement (the “Agreement”) with a tenant to operate the City’s municipal golf course. The Agreement extends through May 31, 2023. The term of the Agreement may be extended for four, five-year extensions upon the mutual agreement of the City and the tenant. As part of the Agreement, the City receives monthly rent payments based upon an annual minimum rent amount plus a percentage of gross revenues. However, in September 2016, an amendment to the Agreement temporarily reduced the monthly rent payment and temporarily eliminated the percentage rent payment.

The City leases golf carts for the City’s municipal golf course. Total operating lease costs were \$19,348 for the year ended September 30, 2020. The future minimum lease payments for these leases are as follows:

<b>Fiscal Year</b>	
<b>Ending</b>	<b>Golf</b>
<b>Sept. 30</b>	<b>Carts</b>
2021	\$ 77,395
2022	77,395
2023	77,395
2024	58,047
<b>Total</b>	<b>\$ 290,232</b>

**CITY OF DEER PARK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

**G. Transfer Station Closure Cost**

The City operates a municipal solid waste transfer station (the “Transfer Station”), which is currently permitted for 200 tons per day of municipal solid waste transfer. Transfer stations are facilities where municipal solid waste is unloaded from collection vehicles and held until the waste is reloaded onto larger transport vehicles for shipment to landfills or other treatment/disposal facilities.

As of September 30, 2020, the total estimated closure costs for the City’s Transfer Station are \$54,217. The reported liability represents 100 percent of the closure costs for the Transfer Station. The liability is based on an engineering study performed in March 2002 that estimated the total closure costs. The estimated closure costs are adjusted annually using the Implicit Price Deflator for Gross National Product published by the United States Department of Commerce. The actual cost may differ from the estimate due to inflation, changes in technology, or regulatory changes.

**H. Chapter 380 Economic Development Agreement**

Chapter 380, *Miscellaneous Provisions Relating to Municipal Planning and Development*, of the Texas Local Government Code provides the authority to the governing body of a municipality to establish and provide for the administration of one or more programs, including programs to promote state or local economic development and to stimulate business and commercial activity in the municipality. The City has entered into a Chapter 380 Economic Development Agreement (the “Agreement”) with one developer (the “Developer”). The term of this Agreement is for a period of 16 years. This Developer agreed to make real property improvements as part of a retail development (the “Project”) including the construction of water and sanitary sewer facilities and traffic and roadway improvements to support the Project. The Developer also agreed to employ and maintain a minimum number of full-time equivalent employment positions working at the retail development site. Between the years ending 2019 through 2022, the City has agreed to reimburse the Developer \$1,000 for each job created/retained up to a maximum of \$465,000 over the four-year period. The City also agreed to pay the Developer a percentage of sales and use tax collected on the property, which ranges from 100 percent of the collections in calendar year 2017 to 50 percent of the collections in calendar year 2031. Lastly, the City agreed to pay the Developer 100 percent of the property tax increment revenues for tax years 2016 through 2025. The aggregate total of all grant program payments made by the City to the Developer shall not exceed \$4,175,750. During fiscal year 2020, the City recognized expenditures of \$130,000 related to this Agreement.

**I. Subsequent Events**

In December 2020, the City issued Certificates of Obligation, Series 2020 (the “Certificates”) in the amount of \$5,000,000. Proceeds from the sale of the Certificates will be used to pay the costs associated with the repair and renovation, the construction of improvements to and the equipment of the City’s waterworks and sanitary sewer system. The Certificates will mature on March 15, 2040 and interest rates range from 3.00 to 4.00 percent.

In December 2020, the City also issued Limited Tax Refunding Bonds, Series 2020 (the “Bonds”) in the amount of \$6,570,000. Proceeds from the sale of the Bonds will be used to defease \$2,260,000 of Certificates of Obligation, Series 2011, \$3,655,000 of Certificates of Obligation, Series 2012, and \$1,365,000 of General Obligation Refunding Bonds, Series 2012. The Bonds will mature on March 15, 2032 and interest rates range from 2.00 to 4.00 percent.

**CITY OF DEER PARK, TEXAS**  
*NOTES TO FINANCIAL STATEMENTS (Continued)*  
For the Year Ended September 30, 2020

In January 2021, the City entered into a capital lease with PNC Equipment Finance for various equipment for the municipal golf course. The lease term is for 36 months, with monthly payments of \$6,974 beginning February 15, 2021.

	2014	2015	2016	2017
Actuarially determined contribution	\$ 2,407,731	\$ 2,527,680	\$ 2,632,998	\$ 2,650,445
Contributions in relation to the actuarially determined contribution	<u>2,407,731</u>	<u>2,527,680</u>	<u>2,632,998</u>	<u>2,650,445</u>
Contributions deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
Covered payroll	\$ 16,455,020	\$ 17,449,288	\$ 18,824,716	\$ 18,622,310
Contributions as a percentage of covered payroll	14.63%	14.49%	13.99%	14.23%

\*Only seven years of information is currently available. The City will continue to build this schedule over the next three-year period.

\*\*The City elected to make fiscal year 2020 contributions at a higher rate of 14.10% instead of the actuarially determined contribution rate of 13.98%.

**Notes to Required Supplementary Information:**

1. Valuation Date:

Actuarially determined contribution rates are calculated as of December 31 and become effective in January, 13 months later.

2. Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, closed
Remaining amortization period	26 years
Asset valuation method	10 year smoothed market; 15% soft corridor
Inflation	2.5%
Salary increases	3.5% to 11.5% including inflation
Investment rate of return	6.75%
Retirement age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2019 valuation pursuant to an experience study of the period 2014-2018.
Mortality	Post retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP. Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a fully generational basis with scale UMP.

3. Other Information:

There were no benefit changes during the year.

**TEXAS MUNICIPAL RETIREMENT SYSTEM**  
**SUPPLEMENTAL DEATH BENEFITS FUND (TMRS SDBF)**  
**For the Year Ended September 30, 2020**

	Measurement Year*		
	2017	2018	2019
<b>Total OPEB Liability</b>			
Service cost	\$ 26,417	\$ 32,973	\$ 30,862
Interest (on the total pension liability)	32,262	32,643	40,257
Difference between expected and actual experience	-	108,364	(213,987)
Changes of assumptions	78,416	(66,027)	173,019
Benefit payments	(7,548)	(7,758)	(8,230)
<b>Net Change in Total OPEB Liability</b>	<u>129,547</u>	<u>100,195</u>	<u>21,921</u>
Beginning total OPEB liability	<u>844,048</u>	<u>973,595</u>	<u>1,073,790</u>
<b>Ending Total OPEB Liability</b>	<u>\$ 973,595</u>	<u>\$ 1,073,790</u>	<u>\$ 1,095,711</u>
<b>Covered Payroll</b>	\$ 18,869,562	\$ 19,395,882	\$ 20,574,955
<b>Total OPEB Liability as a Percentage of Covered Payroll</b>	5.16%	5.54%	5.33%

\* Only three years of information is currently available. The City will continue to build this schedule over the next seven-year period.

\*\*Due to the SDBF being considered an unfunded OPEB plan under GASB 75, benefit payments are treated as being equal to the employer's yearly contributions for retirees.

**Notes to Required Supplementary Information:**

Valuation Date:

Actuarially determined contribution rates are calculated as of December 31 and become effective in January, 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method	Entry age normal
Inflation	2.5%
Salary increases	3.5% to 11.5% including inflation
Discount rate	2.75%
Administrative expenses	All administrative expenses are paid through the PTF and accounted for under reporting requirements under GASB 68.
Mortality - service retirees	2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP.
Mortality - disabled retirees	2019 Municipal Retirees of Texas Mortality Tables with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

Other Information:

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75 to pay related benefits.

The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2019.

Changes in assumptions include the annual change in the municipal bond index rate.

There were no benefit changes during the year.

Notes to Supplementary Information:

1. Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

**CITY OF DEER PARK, TEXAS**  
**NONMAJOR GOVERNMENTAL FUNDS**  
September 30, 2020

**SPECIAL REVENUE FUNDS**

**Special Revenue Funds** are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

**Hotel/Motel Occupancy Tax Fund**

This fund is used to account for proceeds from hotel/motel occupancy taxes received during the year. Expenditures from this fund are restricted to tourism activities. An appropriations style budget is adopted for this fund on an annual basis.

**Grants Fund**

This fund is used to account for the receipt of grant funds from the State or Federal Government. The use of these funds is governed by the terms of the grant.

**Police Forfeiture Fund**

This fund is used to account for the receipt and expenditure of revenues derived from crime seizures that are to be used for law enforcement purposes.

**Municipal Court Fund**

This fund is used to account for specific revenues derived from fees generated by Municipal Court.

**CAPITAL PROJECTS FUNDS**

**Capital Projects Funds** are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets.

**1997 Streets Fund**

This fund is used to account for the receipt of special assessments and the expenditures of such funds to improve Battleground Road.

**Streets Fund**

This fund is used to account for the receipt of special assessments and the expenditures of such funds to improve East Boulevard and East X Street.

**General Obligations Series 2005 Fund**

This fund is used to account for the receipt of bond proceeds and the expenditure of such proceeds to construct and/or improve various public buildings, purchase of land for parks and recreation facilities, street improvement projects, and sidewalk construction.

**Capital Improvements Bond Fund 2007**

This fund is used to account for the receipt of bond proceeds and the expenditure of such proceeds for improvements to City parks, the drainage system, and the expansions of City Hall and the library.

**Capital Improvements Bond Fund 2015**

This fund is used to account for the receipt of bond proceeds and the expenditure of such proceeds for the acquisition and construction of additions and improvements to the City's streets, sidewalks, and related drainage facilities.

**CITY OF DEER PARK, TEXAS**  
*NONMAJOR GOVERNMENTAL FUNDS (Continued)*  
September 30, 2020

**Capital Improvements Bond Fund 2016**

This fund is used to account for the receipt of bond proceeds and the expenditure of such proceeds for the acquisition and construction of additions and improvements to the City's streets, sidewalks, and related drainage facilities.

Notes to Supplementary Information:

- Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- \*Expenditures did not exceed appropriations at the legal level of control as the Grants Fund includes two sub-funds. Only one of the sub-funds has an adopted budget. The variance noted above are expenditures from the fund without an adopted budget.

## STATISTICAL SECTION

This part of the City’s Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and Required Supplementary Information says about the City’s overall financial health.

<b>Contents</b>	<b>Page</b>
Financial Trends	132
<i>These schedules contain trend information to help the reader understand how the City’s financial performance and well-being have changed over time.</i>	
Revenue Capacity	142
<i>These schedules contain information to help the reader assess the City’s most significant local revenue source, property tax.</i>	
Debt Capacity	152
<i>These schedules present information to help the reader assess the affordability of the City’s current levels of outstanding debt and the City’s ability to issue additional debt in the future.</i>	
Demographic and Economic Information	162
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the City’s financial activities take place.</i>	
Operating Information	165
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the City’s financial report relates to the services the City provides and the activities it performs.</i>

Notes:

\* During the year ended September 30, 2013, the City restated the financial statements to recognize a fund as part of an enterprise fund (previously recognized as a capital projects fund). The City also restated the financial statements to recognize certain capital assets and bonds within an enterprise fund (previously recognized under governmental activities).

Notes:

\* The City implemented GASB Statement No. 54 in 2011, which changed the fund balance classifications reported in governmental funds. Descriptive information on the new fund balance classifications is included in the notes to the financial statements.

\*\* During the year ended September 30, 2013, the City restated the financial statements to recognize a fund as part of an enterprise fund (previously recognized as a capital projects fund). The City also restated the financial statements to recognize certain capital assets and bonds within an enterprise fund (previously recognized under governmental activities).

Notes:

Additional information about the City's outstanding debt is included in the notes to the financial statements.

\* During the year ended September 30, 2013, the City restated the financial statements to recognize a fund as part of an enterprise fund (previously recognized as a capital projects fund). The City also restated the financial statements to recognize certain capital assets and bonds within an enterprise fund (previously recognized under governmental activities).

Beginning in fiscal year 2013, this schedule presents debt net of related premiums, discounts, and adjustments.

Source: Texas Municipal Reports and Governmental Units

Notes:

Overlapping rates are those of local and county governments that apply within the City of Deer Park. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of the City of Deer Park. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire burden borne by the property taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt, of each overlapping government.

City direct debt is comprised of debt obligations supported by a pledge of ad valorem taxes.

Excludes general obligation bonds pledged by utility revenues.
