Team of the Quarter Award
Nomination Form

Nominee Names: IT Network Team

Department(s): IT Department

- Tell us why you would like to nominate this team:

I am nominating the City's IT Network Team for their exceptional behind-the-scenes work in preparing the Police Station to serve as a disaster recovery site for critical city systems. The team went above and beyond to carefully plan and execute the relocation and setup of equipment from Fire Station #3, ensuring the work was completed without disrupting daily operations of IT or public safety services. Their proactive approach, technical expertise, and commitment to emergency preparedness reflect a deep dedication to supporting the City and its departments, even when the work is largely unseen.

- What impact did their actions have on the department and/or overall city?

The IT team's actions strengthened the City's ability to maintain continuity of operations during emergencies or when City Hall is unavailable. By establishing a functional disaster recovery environment at the Police Station, they improved system resilience and ensured essential services can remain operational when they are needed most. Their careful execution prevented service interruptions during the transition and enhanced overall city readiness, directly supporting public safety, departmental operations, and the City's ability to serve residents during critical situations.
