Re: Height Variance Request

We, Kevin & Chemaine Manuel, are the property owners of 2306 Peyton Place in Deer Park and would like to request a height variance to enable us to remodel our existing garage. The remodel is to provide an entry that requires a 14 foot garage door for our diesel motorhome that we would like to house in the newly remodeled garage structure. The height variance allows for the roof structure of the remodeled garage to be constructed with the same pitch as the main home as well as blend in with the main home to provide a look as if they were built at the same time.

The height variance is for the property address; 2306 Peyton Place Deer Park, Tx 77536. The height variance we are requesting is for an additional 0'7" for a total height of 22'7". We are requesting the variance under city ordinance SECTION 4.03.2

Please see the attached drawings that detail the view of the new remodeled garage structure and porte cache that is designed to be aesthetically compatible with the existing house structure and blend in very well.

Please contact Chemaine Manuel at 713-502-7619 or Kevin at 281-414-3408 with any question you may have regarding our height variance request.
