TRANSPORTATION/INFRASTRUCTURE

Recommended Alternative

How could the elevated lanes be used?

The elevated lanes could be in the center of the roadway or between the frontage roads and general-purpose lanes.

The recommended alternative proposes to reconstruct the current facility to meet current design standards.

Elevated Lanes | 2 Additional Lanes in Both Directions

Truck Only

Trucks would be allowed to use the elevated lanes.

HOV

Transit or high occupancy vehicles (HOV 2+) would be allowed to use the elevated lanes.

Managed

Trucks, HOV, transit passenger and/or other vehicles could be allowed to use the elevated lanes at certain times of the day.

The diagram illustrates a multi-level highway system. At the top, there are two 'Frontage Roads' on the left and right, each with a truck and a car. In the center, there are 'General Use Lanes' with a line of cars. A 'Managed Lanes' section is highlighted in a red box, showing a truck and a car. The entire system is supported by a central structure with two vertical pillars.

**Elevated managed lanes could be in the center or between the frontage road and general use lanes.*
