On March 4 and 5, 2014, the City Council and staff met in a Retreat facilitated by Ron Cox. The result was a Five (5) Year Strategic Plan for the City. The goals and strategies were categorized under one of the following five (5) Areas of Emphasis: Leadership/Governance, Quality of Life/Image, Comprehensive Planning, Economic Development, and Public Safety.

Between May and September 2014, the various strategies were ranked and prioritized within each area of emphasis and City staff organized into teams to develop an implementation plan. The facilitator for each area of emphasis team is shown below:

- Leadership/Governance - Shannon Bennett
- Quality of Life/Image - Charlie Sandberg
- Comprehensive Planning - Bill Pedersen
- Economic Development - Gary Jackson
- Public Safety - Robert Hemminger

At the September 29, 2014 Council Meeting, Ron Cox reviewed the Vision, Mission, Values and adopted strategies and Staff presented each team's action plan for strategic plan implementation.

The second implementation report was presented on April 7, 2015. The information that was updated was shown in red.

The third implementation report was presented on December 15, 2015. The information that was updated was shown in blue.

The fourth implementation report was presented on December 20, 2016. The information that was updated was shown in green.

B. Review or consider developing Economic Development policies and programs including a Tax Increment Reinvestment Zone (TIRZ) policy and implement or amend appropriately...

- Definition TIRZ

- A TIRZ is special zone created by a City or County to attract new investment to an area. TIRZs help finance the cost of redevelopment and encourage development in an area of land that would otherwise not attract sufficient market development in a timely manner (because of lack of utilities/infrastructure, for instance).
- After a TIRZ is created, the tax dollars attributed to the new improvements within the TIRZ zone are called tax increments, and this money is set-aside in a separate fund to finance public improvements within the boundaries of the TIRZ zone.

Strategy No. 1C

Specifically, it provides for offering loans and grants of city funds or services at little or no cost to promote state and local economic development and to stimulate business and commercial activity.
 - ❖ In order to provide a grant or loan, a city must establish a program to implement the incentives.

Strategy No. 1D

C. Chapter 380 program

- **Current policy:** In accordance with Chapter 380 of the Texas Local Government Code, the City Council of the City of Deer Park, Texas may, on a case-by-case basis, give consideration to providing grants or lending of personnel and/or services to stimulate or promote economic development projects and commercial activity within the city limits of Deer Park. Eligible projects may contract with the City to receive sales tax rebates or grants, water or sewer line extensions or connections, drainage improvements, building permit fee waivers, public road extensions or grants for capital recovery fees. Eligible projects must foster development or redevelopment projects that enhance the City's economic base, diversity and/or expand job opportunities, or promote and encourage projects that create additional revenue for the City without substantially increasing the demand on City services or infrastructure. The goals to be achieved by the granting of the incentive must be measurable and binding upon the recipient of the incentive as set forth in an agreement between the City and recipient. Nothing within this policy shall imply or suggest that Deer Park is under any obligation to provide any incentive to an applicant. The decision to approve or deny economic incentives shall be at the discretion of the City Council.

Discussion of issues relating to the purchase of furniture for the new City Hall facility.

Summary:

The new City Hall facility construction is progressing on schedule. The new furniture will take approximately 8-10 weeks from the date of order to be manufactured, delivered and installed, so it is necessary to place an order as soon as possible. Cre8 Architects has worked with Office Pavilion, a furniture consultant, to develop a proposal for the furnishings, which are proposed to be purchased through the US Communities cooperative buy board. Attached are the following:

- 1) Quotation for all furniture except the Council Chambers audience seating
- 2) Allowance amount for Council Chambers audience seating
- 3) Description and photos of furniture by office

While the majority of the furniture for the new facility will be new, a portion of the existing furniture will be relocated to the new building. The remaining furniture will first be made available to other city departments and the remainder will be sold.

Fiscal/Budgetary Impact:

Cost is approximately \$429,939. Account # is 90-105-4905.

Discussion only during workshop.

Summary:

We have taken receipt of a new Pierce Ladder Truck. This truck represents up-to-date technology and firefighting equipment to serve the community and our citizens. It is with great pride that members of the Deer Park Fire Department and Emergency Services Division offer tours and showcase the capabilities of this new apparatus.

Fiscal/Budgetary Impact:

No budgetary impact, the truck has already been purchased.
