

## City of Deer Park Municipal Court and Theater Building

1302 Center St.

Deer Park, TX 77536

Tremco Incorporated

September 11, 2015

## **TABLE OF CONTENTS**

#### 1. Introduction

Explanation of report objectives, methods of data collection and explanation of the seven categories of maintenance recommendations.

## 2. Executive Summary

Summarized information, presented in numeric and graphical formats, to provide an overview of your roofing inventory: number of roofs, square footage, age and condition by facility.

## 3. Budget Summary

Summarized budget information in graphical format for each facility.

## 4. Roof Details - City of Deer Park

Full details of the roof data collected for City of Deer Park

# SECTION 1. INTRODUCTION

- 1 -

City of Deer Park Section 1, Introduction

#### REPORT CONTENT

Your report provides information essential to the analysis of your roofing investment and development of action plans. It will assist you to effectively and efficiently manage your roofing expenditures. The data you need in order to maintain your roofs in the optimum condition and preserve your substantial investment is provided.

Information is organized into the Executive Summary section followed by details for each roof. The Executive Summary provides overall information on your roofing inventory, asset value, the condition of roofs and budget amounts for maintenance, replacement and restoration work. Information is presented in numerical and graphical formats and is supported by data and recommendations for each individual roof area.

A roof area is defined by the following feature(s): An elevation change separation by walls, fire walls, expansion, control joints or a change of construction.

#### INFORMATION COLLECTION

Information collected includes historical data, construction and condition information. The information is collected by well trained, experienced roof inspectors. The inspection consists of on-site interviews whenever possible, a visual examination of the roof and extractions of roof samples for analysis. All accessible roof projections and equipment are inspected.

Information about the roof insulation and deck are based on what the inspector is able to determine by field examination of a core where possible and a visual examination of the underside of the deck if accessible.

This report and associated recommendations are based on the conditions at the time of the inspection. Both conditions and recommendations will change with time, weather and normal wear and tear associated with roofs.

#### **CONDITION CATEGORIES**

Your inspected roofing inventory has been classified into condition categories. Based on this analysis of certain key characteristics and noted conditions on each roof. Some conditions are clear indicators of future problems. Prompt attention to certain issues now may avoid or forestall a major expenditure later.

The condition categories are as follows:

- 1.0-Red
- 2.10 Red
- 3.20 Red
- 4.30 Amber
- 5 . 40 Amber
- 6 . 50 Amber
- 7 . 60 Amber
- 8 . 70 Amber
- 9 . 80 Green
- 10. 90 Green
- 11. 100 Green
- 12. No Condition Recorded

The assignment of a roof to one of these categories is based on data collected. It does not take into account owner preferences or knowledge of a building or its anticipated future. These factors must be the subject of discussion using the inspection data as a base. This step may well result in a re-organization priority assessment.

#### **FOLLOW-UP WORK**

Expanded recommendations, comprehensive specifications and pertinent cost estimates will be provided to you upon request, based on a more exhaustive on-site examination of the roof areas identified as priorities.

Use the services of Tremco Incorporated Account Executive to supplement the information in this report to help in establishing priorities and in the management of your roofing investment.

## Section 2.

## **Executive Summary**

- 2.1 Overview
- 2.2 Roofing Inventory Examined
- 2.3 Roof Inventory Distribution
- 2.4 Square Footage Distribution
- 2.5 Age Analysis by Square Feet
- 2.6 Condition Category by Square Feet
- 2.7 Roof Membrane Type by Square Feet
- 2.8 Age Analysis by Membrane Type
- 2.9 Condition by Membrane Type

- 3 -

## 2. Executive Summary

#### 2.1 Overview

This section provides information in numeric and graphical formats to summarize the detailed data in the body of this report.

This section essentially answers four questions:

- 1. "What roofing inventory do we have?"
- 2. "What condition is it in?"
- 3. "What will it cost to undertake the necessary work?"
- 4. "Where can I save through maintenance and/or restoration?"

The contents of this section are as follows:

- 1. Summary of the roofing inventory examined with total number of buildings and square footage.
- 2. Analysis based on number of roofs.
- 3. Analysis based on square footage.
- 4. Analysis based on condition categories.
- 5. Analysis based on roof type.

#### **GENERAL INFORMATION**

Roof Name Roof A

Notes Ladder access is located behind the

stage.

Service Activity Type TremCare Platinum

Service Activity Date Jul 11 2015
Job Number 130441
Information Source Specification
Year of Installation 2000 (Estimate)

Roof Leaks No
Leak Sensitivity Medium
Roof Size 5,850 sq. ft.

# of Stories 2
Is Ladder Required? No

Overall Roof Condition 30 - Amber
Technician Robert Hansen

Surfacing Smooth White

Membrane Polyurethane Foam (PUF)

Insulation 3" Polystyrene, Mechanically Attached

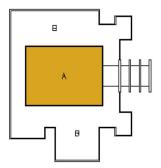

Deck Type Metal

**DRAINAGE AND SLOPE** 

Drainage Overflow Scuppers, Internal Drains
Slope 1/4 inch(es) per foot, Saddles/Crickets

#### PERIMETER, WALL AND COPING
