City of Deer Park Athletic Sports Complex - Determining Field Playability

Standing water occurs because the ground is saturated. Removing standing water does not eliminate the saturation. It is the saturation, and not standing water, that causes damage and unsafe conditions. Determining the playability of an athletic field is crucial to the continued health of the turf and the sustainability of the field throughout the season. More importantly, determining the playability is vital to the safety and best interests of the participants and patrons to the City

of Deer Park athletic sports complexes. The Department will close its athletic fields if City of Deer Park staff determines that fields are too wet for play, or if other issues arise that would compromise patron safety.

League officials have the responsibility to close fields for play when safety and/or field damage is possible.

An athletic field should be considered closed for play if any part of the field becomes unsafe for field users or if conditions exist where use will cause damage to the field.

An athletic field should be considered closed if any of the following conditions exist:

1. There is standing water present on any part of the field that cannot be removed without causing damage to the field.
2. There are muddy conditions present that will not dry by the start of the game.
3. While walking on the field water can be seen or heard with any footstep.
4. If water gathers around the sole of a shoe or boot on any portion of the field.
5. While walking in turf areas any impression of your footprint is left in the surface.
6. While walking on the infield portion of the field, an impression of ½" deep or more is left by a footprint.

Additional reasons for cancelling games:

1. It has rained most of the day of the scheduled game and there is standing water on the field.
2. It has rained for several days prior to the scheduled game and the fields are wet to the point where playing the game will destroy the playing surface.
3. It is raining at the time of the scheduled game and the temperature is low enough to make conditions unbearable for the children.
4. The presence of lightning - 3 strikes and you're out. The first lightning strike will cause a 30 minute delay, with subsequent strikes re-setting the 30 minute delay. Three strikes within 30 minutes will result in cancellation.
5. The potential for severe weather is significant enough that it warrants cancellation for the safety of participants and patrons.

STATE PARKS SHORT-CHANGED IN STATE BUDGET

Lack of funding could lead to limited visitor hours and services

AUSTIN—Advocates for Texas state parks today expressed grave concern over the lack of funding appropriated by the Texas Legislature for the Texas Parks and Wildlife Department (TPWD). In a reversal of policy set forth in 2015, during the 84th Legislative Session, lawmakers have failed to fully appropriate funds already designated for the parks, leaving a gap in funding that will have adverse effects on the state parks.

“Last Session, the Legislature passed and Governor Abbott signed into law a bill that unambiguously dedicated 94 percent of the Sporting Goods Sales Tax for state and local parks in the future,” said George Bristol, Former Chair of the Texas State Parks Advisory Committee. “Conservation champions from around the state applauded our lawmakers for their foresight and vision. Yet here we are again, hat in hand, having to beg for what rightfully belongs to all Texans. We hope House and Senate leaders will recognize this grave error, fully fund the parks for this biennium and then turn, again, to permanently fixing the situation by passing HB 78 authored by Rep. Ryan Guillen.”

In 2015, HB 158 was signed into law, affirming that 94 percent of the Sporting Goods Sales Tax (SGST) was to be used only for state and local parks. Up until that time, since the creation of the SGST in 1993, only 36 percent of the revenues collected were appropriated by the Legislature for state and local parks. The remaining 64 percent was diverted for other programs unrelated to parks, or to artificially balance the state budget. In the meanwhile, park usage and the need for greater maintenance and repairs on an aging system skyrocketed.

Visitors to State Parks like Garner, Enchanted Rock and Balmorhea have experienced lines backed up for hours to get into the parks, for example. And while visitor usage is up, the age of our parks and the backlog of estimated repairs needed at many of them continues to grow. Because of the budget shortfall, projects like the development of Palo Pinto Mountains State Park near Fort Worth, will not happen. And, major flood damage at places like Lake Ray Roberts, Bastrop, Lake Somerville, Lake Whitney, Stephen F. Austin and Cedar Hill, only make existing problems worse. The overall result has been a greatly diminished state park system.

The Comptroller’s revenue estimate for the 2018-2019 biennium budget shows the SGST will bring in an estimated \$333.5 million. Under the tax code, lawmakers should appropriate 94 percent of that for the parks, which would amount to \$313.5 million. Yet both the House and Senate have failed to fully appropriate this amount, leaving the Department with a roughly \$100 million shortfall.

Because of an unforeseen error in the wording of a related piece of legislation, the fix to the SGST was not permanent as intended by the Legislature, now leaving lawmakers with the opportunity to again divert monies designated for the parks for other purposes. In this Session of the Legislature, HB 78 has been introduced to amend the Parks and Wildlife Code and permanently require the Legislature to dedicate 94 percent of the SGST for the parks as was intended.

-More-

"The parks are a vital contributor to our culture, local economies and the preservation of our way of life," said Bristol. "We know we are living in tight budgetary times, but the fact of the matter is the money is being generated by Texas taxpayers to pay for the parks – the Legislature just needs to appropriate it. Without these anticipated funds, envisioned and promised in the passage of HB 158 in 2015, we could very well see continued erosion of major and minor repairs, diminished vital programs for families and children, as well as the possibility of curtailment of other services. That would be a disappointment for all Texans — visitors, local businesses and legislators."

 - c) If a runner attempting to advance a base intentionally makes contact with the fielder (catcher) by sliding into him above the waist, or using a “football” type rolling block or other similar actions, the umpire will call the runner out and if he considers it a flagrant violation the umpire may eject the runner for unsportsmanlike conduct.
 - d) In the event of injury during the play, the umpire may discontinue play at any time regardless of whether or not the ball is in play, if the umpire feels the injured player requires immediate attention.
 - e) With a runner on third base, the batter takes a full swing while the runner is attempting to steal home, the batter is ejected and the manager will be ejected from the field. The ball is dead.
 - f) If a batter shows bunt and then proceeds to take a full swing (“fake bunt – swing away”) the umpire will stop play and the batter is out, the manager is ejected for the remainder of the game and if it happens again in the game, the player will be called out.
