Fatal (K) and Incapacitating (A) crashes used for analysis occurred from 8/1/2015 through 7/31/2018; Data current as of 9/27/2018. K/A crashes are snapped to closest TXDOT Road Centerline and frequency is calculated within 1 minute drivetime ahead of and behind any given location to estimate K/A crash risk. Aggregation does not continue through roadway disconnects.
