---

Presentation of ambulances purchased and upgraded during the current fiscal year.

### Summary:

We have taken receipt of one new ambulance and had a second ambulance refurbished and upgraded with a new chassis during the current fiscal year. These units represent up-to-date technology and medical equipment to serve the community and our citizens. It is with great pride that members of the Deer Park Fire Department and Emergency Services Division offer tours and showcase the capabilities of these units.

### Fiscal/Budgetary Impact:

No budgetary impact, these units have already been purchased.

Go outside and take a tour. Ask questions and marvel at the knowledge of our paramedics!
