File #: BID 19-008, **Version:** 1

Authorization to advertise and receive bids on the 2019 Lane Striping Project.

Summary: Staff is requesting to advertise and receive bids on the 2019 Lane Striping Project. A few years ago we had a lane striping project in various locations around the city, however a lot of the striping paint either didn't adhere well or has already begun to fade. This is due to only 10mil paint being used. After researching the process we feel that going with a 30mil coating will provide a much better outcome. Turnarounds and other thermoplastic markings will use 100mil plastic. Various streets and intersections around town have been identified for the striping.

Fiscal/Budgetary Impact: \$150,000 has been budgeted in the Street Maintenance account 010-403-4406 for this project.

Staff recommends council approve the advertising of this project
